

This is the script for SchoolMessenger message.

Hi, this is Gay Todd, Superintendent of the Marysville Joint Unified School District.

I'm calling to ask for your input to help us update our Local Control Accountability Plan for the 2017-18 school year. This plan outlines priority areas of accountability and helps shape how the district's budget will help students achieve academic success.

Beginning March 20th, the online LCAP 2017 Survey will be posted on our website.

To complete the survey online or to print a hard copy, please go to the following link:

www.mjUSD.com

Look for the "News" at the top of the homepage and click on the LCAP 2017 Survey link.

Once you click on the survey link, you will also see a link to a chart of items that have been implemented from 2014 to present based on suggestions made in past surveys as essential to improving the educational program for MJUSD students. This year, we are asking you to evaluate the importance of these items in an effort to guide our future budget and educational program planning.

To evaluate the importance of each item, please select "Don't Know", "Essential" or "Some Value". There is also a comment box at the end of the survey. The entire survey will take approximately 5 minutes to complete.

Surveys will also be available at each school office if you do not have access to the internet. Completed written surveys can be returned to any MJUSD school office or mailed to the Superintendent's Office at 1919 B Street, Marysville, CA 95901.

We value your opinion and appreciate your willingness to help guide our efforts to help all student achieve academic success.

This message will also be available on the website.

Thank you!
