School Description

Welcome to the exciting world of the Marysville Charter Academy for the Arts (MCAA). The culture at MCAA pulses with students and staff engaged in a comprehensive fine and performing arts, college preparatory, academic environment. Award winning choral/instrumental music, theater, visual arts, dance, and creative writing programs attract students from six different school districts and three counties. Standards-based instruction across disciplines provides a strong foundation to master a rigorous curriculum. Project-based learning engages students in problem-solving activities as they work autonomously or in groups to construct their own learning. This powerful blending of academics and the arts create an environment where students demonstrate proficiency in their field of study and graduate with distinction.

Mission Statement: The Marysville Charter Academy for the Arts is a college preparatory, secondary level school whose curriculum emphasizes instruction in the literary, visual, and performing arts. Students receive instruction in the core subject areas as well as specialized instruction in a wide variety of the arts. Instruction in the core subject areas is primarily interdisciplinary, thematic, and integrates the arts whenever feasible.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Professional Development provided for Teachers

The Marysville Joint Unified School District Board of Trustees believes that, in order to maximize student learning and achievement in all subgroups, certificated staff members must be continuously engaged in learning and improving their skills through deep professional learning and collaboration. The district offers a program of ongoing professional development which includes opportunities for teachers to enhance their instructional and classroom management skills and become informed about changes in teaching strategies and subject matter. Along with ongoing grade level articulation and trainings scheduled during and after school, teachers participate in 7 days of professional development on non-instructional days.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school at (530) 749-6156 or the district office.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2015-16)

State law, effective July 29, 2009, delayed all instructional materials adoptions and the development of curriculum frameworks and evaluation criteria until the 2015-16 school year. Since then specific legislation has authorized the State Board of Education to conduct adoptions in mathematics (Assembly Bill 1246) and English language arts/English language development (Senate Bill 201). The state adopted mathematics in January 2014, and English language arts/English language development is scheduled to be state adopted in 2016. The Marysville Joint Unified School District provided new state adopted mathematics curriculum beginning in 2014-15 and is slated to provide new English language arts/English language development curriculum in 2016-17.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement

Parents are active partners with us in helping our students develop personal responsibility, skills for productive work in artistic pursuits and careers, and the ability to be life-long learners. A very active Parent Teacher Student Association and School Site Council are the primary vehicles for parent participation although support for education finds many forms at the Academy from chaperoning field trips and assisting at school activities to sewing costumes for performances. Parent participation is an expectation for all parents from the moment their child is accepted to the Academy. Together, we create an environment that enables students to become responsible, cooperative, and creative learners ready for what is expected of them in the 21st century.

Parent involvement coordinator: Michelle Stewart, (916) 715 - 4213, michellestewart001@att.net

State Priority: School Climate

The SARC provides the following information relevant to the School Climate State Priority (Priority 6):

- Pupil suspension rates, pupil expulsion rates; and other local measures on the sense of safety.

School Safety Plan

Each school site has adopted a Comprehensive Safe School Plan to ensure our school environment is conducive to academic achievement. It is a working document reviewed on a regular basis and has been developed through our School Safety Planning Committee (SSC). This Planning committee is composed of school staff, district staff, community members, and local law enforcement. We work closely with other school administrators to ensure that all school safety plans are consistent throughout the district. Improvements and revisions are made at our monthly safety meetings with local law enforcement.

Signs are visibly posted throughout the school requiring all non-school employees to register at the office. All staff members are trained to stop and question any person who is not wearing an identifying badge issued from the office. The Site Council formally adopts the Safe School Plan, and it is board approved before March 1 every year. The plan includes the following major elements: safe school goals, school crime assessment, safe school strategies and programs, child abuse reporting procedures, disaster response procedures, suspension and expulsion policy, teacher safety, sexual harassment policy, district tobacco policy - safe school drug and tobacco education, dress code, safety standards for arrival and departure, and school discipline.

The safety of our students is our top priority. Each month, our students and staff participate in safety drills designed to address potential emergencies at our school including fire evacuation, earthquake drop and cover, and lock downs in the event of an on-campus intruder. Catapult EMS is a communication system used during emergencies to inform staff, the District Safety Team, and law enforcement of a school incident or crisis. The system uses real-time student accounting, staff location check-ins, threat report management, and messaging through text messages and emails.

Types of Services Funded

The district receives revenue limit and other apportionments to provide direct instruction and support to students. These monies pay for teachers, site administration, district office personnel, maintenance, transportation, special education, and all operating expenses. Each site receives a discretionary allocation for site operations. Sites are not responsible for utilities or facility operations. Sites also receive support services such as counseling, health, psychological, and routine maintenance. School sites receive additional monies for supplemental academic interventions directed to targeted students who are not performing at grade level.
