

Cedar Lane Elementary School
Presentation to the Board of Trustees
1/24/17

At Cedar Lane Elementary School, we are committed to meeting the academic needs of our students. This year, we have redefined our Mission and Vision:

Educating Today for Empowerment Tomorrow!

Cedar Lane seeks to create a learning community for all students and staff where relationships are built on equality, respect, and collaboration. This ensures that students can achieve their maximum potential in a safe and positive environment in order to become productive members of society.

We have defined our norms of collaboration. We will intervene early using methods of a Professional Learning Community to monitor progress. We will be unpacking the California Common Core Standards and look to establish target goals for each grade level. Our focus remains on meeting the fundamental needs of our students, as well as their academic achievement. As a staff, we have committed to a plan for improvement and we will make progress.

In addition, bridging the divide between school and home in terms of overall communication continues to be a top priority. Although the level of parent involvement continues to improve, efforts to increase communication with Spanish, Hmong, and English speaking families remains a priority. We have classes for parents to support parenting techniques, reading techniques, nutritional guidelines and English as a second Language. We continue to host an intern MFT through Harmony Health for students and families as needed. We have had a second Grief class for those students that have had a loss of a family member. We have an intervention counselor and a intervention therapist through Yuba County Probation that we share with Linda School. We have students that attend Victim Services counseling for additional support.

Communicating with parents remains a top priority. Teachers started the school year by meeting with parents. We schedule parent conferences twice during the year emphasizing the need for effective two-way communication throughout the school year. For those unable to make their appointments, efforts are made to communicate expectations with parents or guardians through phone conversations and e-mail in order to punctuate the importance of the school-home partnership. The school continues to make written information available to parents in the three primary languages that are spoken by our families. Parent participation levels have also grown as a result of adult education classes, PTO and ELAC meetings, and premier preschool parental involvement program.

Cedar Lane is proud to be a school that began the PBIS (Positive Behavior and Support) early on reducing our suspensions and promoting a positive environment. Monthly assemblies and a Walk of Fame keeps our school spirit up and is one of the biggest reasons that people desire to come to Cedar Lane. We have weekly meetings to target students that may need extra support to help those students become successful. Check in Check out is a method that not only monitors student behavior, but assists in building positive relationships between teachers and students. As students become successful, they transition to self-monitoring and then Check and Connect, a method of checking in with adults. We have had a Positive Poster Contest every other month and have several posters designed by students and mounted in the cafeteria.

Please come by to witness and share in our dedication and commitment to the children of West Linda.

Respectfully Submitted,

Jill W. Segner

- A. In the event either Party fails to perform any duty, obligation, service or task set forth under this Agreement (or fails to timely perform or properly perform any such duty, obligation, service or task set forth under this Agreement), an event of default (hereinafter, "Event of Default") shall occur. For all Events of Default, the Party alleging an Event of Default shall give written notice to the defaulting Party (hereinafter referred to as a "Default Notice") which shall specify: (i) the nature of the Event of Default; (ii) the action required to cure the Event of Default; (iii) a date by which the Event of Default shall be cured, which shall not be less than the applicable cure period set forth under Sections 5.2.B and 5.2.C below or if a cure is not reasonably possible within the applicable cure period, to begin such cure and diligently prosecute the such cure to completion. The Event of Default shall constitute a breach of this Agreement if the defaulting Party fails to cure the Event of Default within the applicable cure period or any extended cure period allowed under this Agreement.
- B. CONTRACTOR shall cure the following Events of Defaults within the following time periods:
- i. Within three (3) business days of DISTRICT's issuance of a Default Notice for any failure of CONTRACTOR to timely provide DISTRICT or DISTRICT's employees or agents with any information and/or written reports, documentation or work product which CONTRACTOR is obligated to provide to DISTRICT or DISTRICT's employees or agents under this Agreement. Prior to the expiration of the 3-day cure period, CONTRACTOR may submit a written request for additional time to cure the Event of Default upon a showing that CONTRACTOR has commenced efforts to cure the Event of Default and that the Event of Default cannot be reasonably cured within the 3-day cure period. The foregoing notwithstanding, DISTRICT shall be under no obligation to grant additional time for the cure of an Event of Default under this Section 5.2 B.i. that exceeds seven (7) calendar days from the end of the initial 3-day cure period; or
 - ii. Within fourteen (14) calendar days of DISTRICT's issuance of a Default Notice for any other Event of Default under this Agreement. Prior to the expiration of the 14-day cure period, CONTRACTOR may submit a written request for additional time to cure the Event of Default upon a showing that CONTRACTOR has commenced efforts to cure the Event of Default and that the Event of Default cannot be reasonably cured within the 14-day cure period. The foregoing notwithstanding, DISTRICT shall be under no obligation to grant additional time for the cure of an Event of Default under this Section 5.2B.ii that exceeds thirty (30) calendar days from the end of the initial 14-day cure period. .

In addition to any other failure on the part of CONTRACTOR to perform any duty, obligation, service or task set forth under this Agreement (or the failure to timely perform or properly perform any such duty, obligation, service or task), an Event of Default on the part of CONTRACTOR shall include, but shall not be limited to the following: (i) CONTRACTOR's refusal or failure to perform any of the services or tasks called for under the Scope of Work; (ii) CONTRACTOR's failure to fulfill or perform its obligations under this Agreement within the specified time or if no time is specified, within a reasonable time; (iii) CONTRACTOR's and/or its employees' disregard or violation of any federal, state, local law, rule, procedure or regulation; (iv) the initiation of proceedings under any bankruptcy, insolvency, receivership, reorganization, or similar legislation as relates to CONTRACTOR, whether voluntary or involuntary; (v) CONTRACTOR's refusal or failure to perform or observe any covenant, condition, obligation or provision of this Agreement; and/or (vi) DISTRICT's discovery that a statement representation or warranty by CONTRACTOR relating to this Agreement is false, misleading or erroneous in any material respect.

- C. DISTRICT shall cure any Event of Default asserted by CONTRACTOR within FORTY-FIVE (45) calendar days of CONTRACTOR's issuance of a Default Notice, unless the Event of Default cannot reasonably be cured within the 45-day cure period. Prior to the expiration of the 45-day cure period, DISTRICT may submit a written request for additional time to cure the Event of Default upon a showing that DISTRICT has commenced its efforts to cure the Event of Default and that the Event of Default cannot be reasonably cured within the 45-day cure period. The foregoing notwithstanding, an Event of Default dealing with DISTRICT's failure to timely pay any undisputed sums to CONTRACTOR as provided under Section 1.4, above, shall be cured by DISTRICT within five (5) calendar days from the date of CONTRACTOR's Default Notice to DISTRICT.
- D. DISTRICT, in its sole and absolute discretion, may also immediately suspend CONTRACTOR's performance under this Agreement pending CONTRACTOR's cure of any Event of Default by giving CONTRACTOR written notice of DISTRICT's intent to suspend CONTRACTOR's performance (hereinafter, a "Suspension Notice"). DISTRICT may issue the Suspension Notice at any time upon the occurrence of an Event of Default. Upon such suspension, CONTRACTOR shall be compensated only for those services and tasks which have been rendered by CONTRACTOR to the reasonable satisfaction of DISTRICT up to the effective date of the suspension. No actual or asserted breach of this Agreement on the part of DISTRICT shall operate to prohibit or otherwise restrict DISTRICT's ability to suspend this Agreement as provided herein.
- E. No waiver of any Event of Default or breach under this Agreement shall constitute a waiver of any other or subsequent Event of Default or breach. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel, or otherwise.
- F. The duties and obligations imposed under this Agreement and the rights and remedies available hereunder shall be in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law. In addition to any other remedies available to DISTRICT at law or under this Agreement in the event of any breach of this Agreement, DISTRICT, in its sole and absolute discretion, may also pursue any one or more of the following remedies:
- i. Upon written notice to CONTRACTOR, the DISTRICT may immediately terminate this Agreement in whole or in part;
 - ii. Upon written notice to CONTRACTOR, the DISTRICT may extend the time of performance;
 - iii. The DISTRICT may proceed by appropriate court action to enforce the terms of the Agreement to recover damages for CONTRACTOR's breach of the Agreement or to terminate the Agreement; or
 - iv. The DISTRICT may exercise any other available and lawful right or remedy.

CONTRACTOR shall be liable for all legal fees plus other costs and expenses that DISTRICT incurs upon a breach of this Agreement or in the DISTRICT's exercise of its remedies under this Agreement.

- G. In the event DISTRICT is in breach of this Agreement, CONTRACTOR's sole remedy shall be the suspension or termination of this Agreement and/or the recovery of any unpaid sums lawfully owed to CONTRACTOR under this Agreement for completed services and tasks.

5.3 **SCOPE OF WAIVER:** No waiver of any default or breach under this Agreement shall constitute a waiver of any other default or breach, whether of the same or other covenant, warranty, agreement, term, condition, duty or requirement contained in this Agreement. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel, or otherwise.

5.4 **SURVIVING ARTICLES, SECTIONS AND PROVISIONS:** The termination of this Agreement pursuant to any provision of this Article or by normal expiration of its term or any extension thereto shall not operate to terminate any Article, Section or provision contained herein which provides that it shall survive the termination or normal expiration of this Agreement.

To Mr. Carreon,

I wanted to officially submit a letter of resignation since it clear that I will not be able to complete my student teaching and still keep working as a para-educator at Kynoch School. Therefore, my last day at Kynoch School will be Monday January 23, 2017.

I also wanted to let you know that I very much appreciate you finding a place for me to complete my student teaching. It is very close to my home and I am clearly in good hands with the supervising teacher that I am working with.

Thank you,

Kimberly Bolotin

Dear Tracy Pomeroy,

I am writing this letter to inform you about my resignation as a provider from S.T.A.R.S. I had initially thought that I would be able to complete the whole school year. Yet, I had to make the hard decision to continue my school career and will be transferring to Sonoma State University in January 2017. My last day will unfortunately be December 16, 2016.

These past two years have been some of the most rewarding years. I am very thankful for having been able to work with such a great program such as S.T.A.R.S. Being able to work at my old elementary school (Cedar Lane) and help spark the interest of students with science lessons and activates has been one of the most rewarding experiences. Nothing was more fulfilling than to see students excited to learn about science when initially they didn't like science or believed it was boring.

I look forward to making the best of my last few weeks at S.T.A.R.S. If possible I would truly enjoy coming back to work for S.T.A.R.S once I am done with school. I will miss working with my amazing co-workers, students, and parents. Thank you for everything and for giving me the opportunity to work for S.T.A.R.S.

Sincerely,

Patricia Magana

TERMS AND CONDITIONS

ARTICLE 1. WAGE RATES: Pursuant to the provisions of article 2 (commencing at section 1770), chapter 1, part 7, divisions 2 of the Labor Code of California, the Director of Industrial Relations has ascertained the general prevailing rate of per diem wages in the locality in which this public work is to be performed for each craft, classification or type of worker needed to execute the contract. Copies of said determinations are on file at District's principal office and available to any interested party on request Refer to web site (www.dir.ca.gov).

Holiday and overtime work, when permitted by law, shall be paid for at a rate of at least one and one-half times the general prevailing rate of per diem wages as determined by the Director of Industrial Relations, unless otherwise specified. Each worker of the Contractor or any of his subcontractors engaged in work on the project shall be paid not less than the general prevailing rate of per diem wages determined by the Director of Industrial Relations, regardless of any contractual relationship which may be alleged to exist between the Contractor or any subcontractor and such workers.

Each worker needed to execute the work on the project shall be paid travel and subsistence payments, as such travel and subsistence payments are defined in the applicable collective bargaining agreements filed with the Department of Industrial Relations in accordance with Labor Code section 1173.8.

The Contractor shall, as a penalty to the District, forfeit not more than fifty dollars (\$50) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the Director of Industrial Relations for the work or craft in which the worker is employed for any public work done under the contract by him or by any subcontractor under him. Prevailing wage rates shall also be used when determining wages paid for change order items. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of the Contractor's mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages, or the previous record of the Contractor in meeting his prevailing wage obligations, or the Contractor's willful failure to pay the correct rates of prevailing wages. The difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the Contractor, and the Contractor shall be bound by the provisions of Labor Code section 1775.

Any worker employed to perform work on the project, which work is not covered by any classification listed in the general prevailing rate of per diem wages determined by the Director of Industrial Relations, shall be paid not less than the minimum rate of wages specified therein for the classification which most nearly corresponds to work to be performed. Such minimum wage rate shall be retroactive to the time of initial employment of such person in such classification.

Pursuant to Labor Code section 1773.1, per diem wages are deemed to include employer payments for health and welfare, pension, vacation, travel time, subsistence pay and similar purposes. Contractor shall post at appropriate conspicuous points on the site of project, a schedule showing all determined minimum wage rates and all authorized deductions, if any, from unpaid wages actually earned.

Contractor and each subcontractor shall keep an accurate payroll record, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him in connection with the public work.

Revised 10-06-2016

The payroll records required above shall be certified and shall be available for inspection at all reasonable hours at the principal office of the Contractor on the following basis:

- a) A certified copy of an employee's payroll record shall be made available for inspection or furnished to such employee or his or her authorized representative on request.
- b) A certified copy of all payroll records shall be made available for inspection or furnished upon request to a representative of District, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations.
- c) A certified copy of all payroll records shall be made available upon request to the public for inspection or copies thereof made; provided, however, that a request by the public shall be made through either the District, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. The public shall not be given access to such records at the principal office of the Contractor.

A Contractor or Subcontractor shall not be qualified to submit a proposal on, be listed on a proposal (subject to the requirements of Public Contract Code section 4104), or engage in the performance of any contract for public work unless currently registered and qualified to perform public work pursuant to Labor Code §1725.5, except under the limited circumstances set forth in Labor Code §1771.1(a). This requirement shall apply to any bid proposal submitted on or after March 1, 2015, and any contract for public work awarded on or after April 1, 2015. The District may not accept a proposal or enter into a contract for a public works project with an unregistered contractor.

Pursuant to Labor Code §1771.4, this Contract is subject to compliance monitoring and enforcement by the Department of Industrial Relations. Each Contractor and Subcontractor performing work on the Project shall be required to comply with the provisions of the California Labor Code, beginning with section 1720, and the regulations of the Department of Industrial Relations' Division of Labor Standards Enforcement (i.e., the Labor Commissioner), including, but not limited to, the standard provisions requiring payment of prevailing wages, maintenance and submission of certified payroll records, and the hiring of apprentices as appropriate. Unless otherwise specified, the Contractor shall be required to post job site notices regarding the requirements of this paragraph, as prescribed by regulation. For all new public works projects awarded on or after April 1, 2015, Contractor and each Subcontractor shall be required to furnish the records specified in Labor Code §1776 directly to the Labor Commissioner at least monthly, or more frequently if specified in the Contract Documents, and in a format prescribed by the Labor Commissioner. This requirement shall apply to all projects, whether new or ongoing, on or after January 1, 2016.

Contractor shall be responsible for complying with the provisions California Labor Code beginning with Section 1720, and the regulations of the Department of Industrial Relations, including, but not limited to, the standard provisions requiring payment of prevailing wages, maintenance and submission of certified weekly payrolls, and hiring of apprenticeship as appropriate. Contractor shall work with the Compliance Monitoring Unit to ensure the full compliance with the Department of Industrial Relations and applicable labor law.

ARTICLE 2. APPRENTICES: Apprentices of any crafts or trades may be employed and, when required by Labor Code section 1777.5, shall be employed provided they are properly indentured to the Contract in full compliance with provisions of the Labor Code. The prime contractor shall bear the responsibility of compliance with Labor Code section 1777.5 for all apprenticeable occupations and agrees that he

Marysville Joint Unified School District

will comply with said section which reads: "Nothing in this chapter shall prevent the employment of properly registered apprentices upon public works. Every apprentice shall be paid the standard wage paid to apprentices under the regulations of the craft or trade at which he is employed, and shall be employed only at the work of the craft or trade to which he is registered."

Only apprentices, as defined in Section 3077, who are in training under apprenticeship standards and written apprentice agreements under Chapter 4 (commencing with Section 3070), of Division 3, of the Labor Code, are eligible to be employed on public works. The employment and training of each apprentice shall be in accordance with the provisions of the apprenticeship standards and apprentice agreements under which he or she is training.

When the contractor to whom the contract is awarded by the District, in performing any of the work under the contract or subcontract, employs workers in any apprenticeable craft or trade, the contractor and subcontractor shall apply to the joint apprenticeship committee administering the apprenticeship standards of the craft or trade in the area of the site of the public work for a certificate approving the contractor or subcontractor under the apprenticeship standards for the employment and training of apprentices in the area or industry affected. However, approval as established by the joint apprenticeship committee or committees shall be subject to approval of the Administrator of Apprenticeship. The joint apprenticeship committee or committees, subsequent to approving the subject contractor or subcontractor, shall arrange for the dispatch of apprentices to the contractor or subcontractor in order to comply with this section. Every contractor and subcontractor shall submit contract award information to the applicable joint apprenticeship committee which shall include an estimate of journeyman hours to be performed under the contract, the number of apprentices to be employed, and the approximate date the apprentices will be employed. There shall be an affirmative duty upon the joint apprenticeship committee or committees administering the apprenticeship standards of the craft or trade in the area of the site of the public work to ensure equal employment and affirmative action in apprenticeship for women and minorities. Contractors or subcontractors shall not be required to submit individual applications for approval to local joint apprenticeship committees provided they are already covered by the local apprenticeship standards. The ratio of work performed by apprentices to journeymen who shall be employed in the craft or trade on the public work may be the ratio stipulated in the apprenticeship standards under which the joint apprenticeship committee operates, but, except as otherwise provided in this section, in no case shall the ratio be less than one hour of apprentice work for every five hours of labor performed by a journeyman. However, the minimum ratio for the land surveyor classification shall not be less than one apprentice for each five journeymen.

Any ratio shall apply during any day or portion of a day when any journeyman, or the higher standard stipulated by the joint apprenticeship committee, is employed at the job site and shall be computed on the basis of the hours worked during the day by journeymen so employed, except for the land surveyor classification. The Contractor shall employ apprentices for the number of hours computed as above before the end of the contract. However, the Contractor shall endeavor, to the greatest extent possible, to employ apprentices during the same time period that the journeymen in the same craft or trade are employed at the job site. Where an hourly apprenticeship ratio is not feasible for a particular craft or trade, the Division of Apprenticeship Standards, upon application of a joint apprenticeship committee, may order a minimum ratio of not less than one apprentice for each five journeymen in a craft or trade classification.

The Contractor or subcontractor, if he is covered by this section, upon the issuance of the approval certificate, or if he has been previously approved in the craft or trade, shall employ the number of apprentices or the ratio of apprentices to journeymen stipulated in the apprenticeship standards. Upon proper showing by the Contractor that he employs apprentices in such craft or trade in the state on all of his

contracts on an annual average of not less than one hour of apprentice work for every five hours of labor performed by a journeyman, or in the land surveyor classification, one apprentice for each five journeymen, the Division of Apprenticeship Standards may grant a certificate exempting the Contractor from the 1-to-5 hourly ratio as set forth in the section. This section shall not apply to contracts of general contractors or to contracts of specialty contractors not bidding for work through a general or prime contractor, when the contracts of general contractors or those specialty contractors involve less than thirty thousand (\$30,000) or 20 working days. This section shall not use any work performed by a journeyman in excess of eight hours per day or 40 hours per week to calculate the hourly ratio.

"Apprenticeable craft or trade," as used in this section, means a craft or trade determined as an apprenticeable occupation in accordance with the rules and regulations prescribed by the Apprenticeship Council. The joint apprenticeship committee shall have the discretion to grant a certificate, which shall be subject to the approval of the Administrator of Apprenticeship, exempting a contractor from the 1-to-5 ratio set forth in this section when it finds that any one of the following conditions is met: a) Unemployment for the previous three-month period in such area exceeds an average of 15 percent. b) The number of apprentices in training in such area exceeds a ratio of 1-to-5. c) If there is a showing that the apprenticeable craft or trade is replacing at least one-thirtieth of its journeymen annually through apprenticeship training, either on a statewide basis, or on a local basis. d) Assignment of an apprentice to any work performed under a public works contract would create a condition which would jeopardize his life, or the life, safety, or property of fellow employees or the public at large or if the specific task to which the apprentice is to be assigned is of such a nature that training cannot be provided by a journeyman.

When exemptions are granted to an organization which represents contractors in a specific trade from the 1-to-5 ratio on a local or statewide basis, the member contractors will not be required to submit individual applications for approval to local joint apprenticeship committees, if they are already covered by the local apprenticeship standards.

A contractor to whom the contract is awarded, or any subcontractor under him who, employs journeymen or apprentices in any apprenticeable craft or trade to perform work under the contract and who is not contributing to a fund or funds to administer and conduct the apprenticeship program in any craft or trade in the area of the site of the public work, to which fund or funds other contractors in the area of the site of the public work are contributing, shall contribute to the fund or funds in each craft or trade in which he employs journeymen or apprentices on the public work in the same amount or upon the same basis and in the same manner as the other contractors do. Where the trust fund administrators are unable to accept the fund, contractors not signatory to the trust agreement shall pay a like amount to the California Apprenticeship Council. This contractor or subcontractor may add the amount of the contributions in computing his bid for the contract. The Division of Labor Standards Enforcement is authorized to enforce the payment of the contributions to the fund or funds as set forth in Labor Code Section 227.

The District awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. The stipulations shall fix the responsibility of compliance with this section for all apprenticeable occupations with the prime contractor. All decisions of the joint apprenticeship committee under this section are subject to Labor Code Section 3081.

ARTICLE 3. WORK HOURS: As provided in article 3 (commencing at section 1810), chapter 1, part 7, division 2 of the Labor Code, eight (8) hours of labor shall constitute a legal day's work. The time of service of any worker employed at any time by the Contractor or by any subcontractor on any subcontract under this contract upon the work or upon any part of the work contemplated by this contract is limited and restricted to eight (8) hours during any one-calendar day and forty (40) hours during any one-calendar week, except as hereinafter provided.

Marysville Joint Unified School District

Notwithstanding the provisions hereinabove set forth, work performed by employees of Contractor in excess of eight (8) hours per day, and forty (40) hours during any one week, shall be permitted upon this public work upon compensation for all hours worked in excess of eight (8) hours per day at not less than one and one-half times the basic rate of pay.

The Contractor and every subcontractor shall keep accurate record showing the name and actual hours worked each calendar day and each calendar week by each worker employed by him in connection with the work or any part of the work contemplated by this contract. The record shall be kept open at all reasonable hours to the inspection of the District and the Division of Labor Law Enforcement, Department of Industrial Relations of the State of California.

The Contractor shall pay to the District a penalty of twenty-five dollars (\$25) for each worker employed in the execution of this contract by the Contractor or by any subcontractor or by any subcontractor for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any calendar day and forty (40) hours in any one calendar week in violation of the provisions of article 3 (commencing at section 1810), chapter 1, part 7, division 2 of the Labor Code.

Any work necessary to be performed after regular working hours, or on Sundays or other holidays shall be performed without additional expense to District.

ARTICLE 4. SUBCONTRACTING: Contractor agrees to bind every subcontractor by terms of the contract as far as such terms are applicable to subcontractor's work. Nothing contained in contract documents shall create any contractual relation between any subcontractor and District.

ARTICLE 6. WORKERS' COMPENSATION INSURANCE: The Contractor shall provide, during the life of this contract, workers' compensation insurance for all its employees engaged in work under this contract, or at the site of the project, and if work is sublet, the Contractor shall require the subcontractor similarly to provide workers' compensation insurance for all the latter's employees. Any class of employee or employees not covered by a subcontractor's insurance shall be covered by the Contractor's insurance. The Contractor shall provide to the District a Certificate regarding Workers' Compensation available from the District prior to performing the work of the contract.

ARTICLE 7. PROOF OF INSURANCE: Contractor must provide Commercial General Liability Insurance (including automobile insurance) which provides limits of not less than \$1,000,000 per occurrence (combined single limit) and \$2,000,000 Project Specific Aggregate (for this project only). Any general liability policy provided by Contractor hereunder shall contain an endorsement which applies its coverage to District, members of District's Board of Trustees, and the officers, agents, employees and volunteers of District, the State Allocation Board, if applicable, the architect, and the architect's consultants, if applicable, individually and collectively as additional insured. Coverage additional to that shown above to be evidenced in a provided Certificate of Insurance is as follows: Products-Comp/Ops Aggregate \$1,000,000; Automobile \$1,000,000; Personal and Advertising Injury \$1,000,000; Each Occurrence \$1,000,000; Fire Damage minimum \$100,000; Medical Expense (per person) \$5,000. *Activities that place buildings at risk for fire (use of kitchen, portable lighting, heavy electrical gear, etc. must have a \$1,000,000 Property/Fire limit.

The limits set forth above shall not be construed to relieve the Contractor from liability in excess of such coverage, nor shall it limit

Revised 10-06-2016

contractor's indemnification obligations to District, and shall not preclude the District from taking such other actions available to District under other provisions of the contract documents or law.

Contractor and any subcontractor shall not commence work nor shall he allow any subcontractor to commence work under this contract until all required Insurance certificates have been delivered to and approved by District.

ARTICLE 8. However, Contractor shall have no obligation to defend or indemnify District from a Claim if its determined by a court of competent jurisdiction that such Claim was caused by the active negligence, sole negligence, or willful misconduct of District or its agents or employees.

ARTICLE 9. MATERIALS: Contractor warrants good title to all material, supplies and equipment installed or including in the work. Except as otherwise specifically stated in this contract, Contractor shall provide and pay for all materials, labor, tools, equipment, water, lights, power, transportation, superintendence, temporary constructions of every nature, and all other services and facilities of every nature whatsoever necessary to execute and complete this contract within specified time. Unless otherwise specified, all materials shall be new and both workmanship and materials shall be of good quality. District will give notice of observed defects with reasonable promptness. Contractor shall notify District upon completion of repairs.

This article does not in any way limit the guarantee of any items for which a longer guarantee is specified or on any items for which a manufacturer gives a guarantee for a longer period. Contractor shall furnish District all appropriate guarantee or warranty certificates upon completion of the project.

ARTICLE 12. PROTECTION OF WORK AND PROPERTY: The Contractor shall be responsible for all damages to persons or property that occur as a result of his fault or negligence in connection with the prosecution of this contract and shall be responsible for the proper care and protection of all materials delivered and work performed until completion and final acceptance by the District. Marysville Joint Unified School District

Contractor shall erect and properly maintain at all times, as required by conditions and progress of work, all necessary safeguards, signs, barriers, light and watchmen for protection of workers and the public and shall post danger signs warning against hazards created by such features in the course of construction. Contractor shall designate a responsible member of the organization on the work, whose duty shall be prevention of accidents. Contractor shall report name and position of person so designated to District.

ARTICLE 13. ARTICLE 14. COMPLIANCE WITH STORM WATER PERMIT

Contractor shall be required to comply with all conditions of the State Water Resources Control Board ("State Water Board") National Pollutant Discharge Elimination System General Permit for Waste Discharge Requirements for Discharges of Storm Water Runoff Associated with Construction Activity ("Permit") - General NPDES Permit No. CAS000004 adopted by the State Water Resources Control Board. ARTICLE 17. EXCAVATION DEEPER THAN FOUR FEET: If this contract involves digging trenches or other excavations that extend deeper than four feet below the surface, then all of the following apply:

- a. The Contractor shall promptly, and before the following conditions are disturbed, notify the District, in writing of any: (1) Material that the Contractor believes may be material that is hazardous waste, as defined in section 25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law. (2) Subsurface or latent physical conditions at the site differing from those indicated. (3) Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this contract.
- b. Upon receiving any such notice, the District shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the Contractor's cost of, or the time required for, performance of any part of the work shall issue a change order under the procedures described in this contract.
- c. In the event that a dispute arises between the District and the Contractor whether the conditions materially differ or involve hazardous waste, or cause a decrease or increase in the Contractors' cost of, or time required for, performance of any part of the work, the Contractor shall not be excused from any scheduled completion date provided for by this contract, but shall proceed with all work to be performed under the contract. A contractor shall retain any and all rights provided either by contract or by law, which pertain to the resolution of disputes and protest between the contracting parties.

ARTICLE 18. REMOVAL OR RELOCATION OF MAIN OR TRUNKLINE UTILITY FACILITIES:

The Contractor shall not be assessed for liquidated damages for delay in completion of this project, when such delay was caused by the failure of the awarding authority of this contract or the owner of the utility to provide for removal or relocation of the existing main or trunkline utility facilities; however, when the Contractor is aware that removal or relocation of an existing utility has not been provided for, Contractor shall promptly notify the awarding authority and the utility in writing, so that provision for such removal or relocation may be made to avoid and minimize any delay which might be caused by the failure to remove or relocate the main or trunkline utility facilities, or to provide for its removal or relocation. In accordance with section 4215 of the Government Code, if the Contractor while performing the contract discovers any existing main or trunkline utility facilities not identified by the public agency in the contract plans or specifications, he shall immediately notify the public agency and utility in writing. The public utility, where they are the owners, shall have the sole discretion to perform repairs or relocation work or permit the Contractor to do such repairs or relocation work at a reasonable price. The Contractor shall be compensated for the costs of locating, repairing damage not due to the failure of the Contractor to exercise reasonable care, and removing or relocating such utility facilities not indicated in the plans and specifications with reasonable accuracy, and for equipment on the project necessarily idled during such work.

ARTICLE 19. CHANGE ORDERS: Change orders may not cause the total aggregate cost of the project to exceed \$45,000 or the project will become subject to California Uniform Public Construction Cost Accounting Act (CUPCAA) bid regulations. The District, without invalidating contract, and as provided by law, may order extra work or make changes by altering, adding to, or deducting from work, the contract sum being adjusted accordingly. All such work shall be subject to prevailing wage rates and shall be executed under the conditions of the original contract except that any claim for extension of time caused thereby shall be adjusted at the time of ordering such change. In giving Instructions, Contractor agrees that the District shall

Marysville Joint Unified School District

have authority to make minor changes in work, not involving change in cost, and not inconsistent with the purposes or approvals of the project. Otherwise, except in an emergency endangering life or property, no extra work or change shall be made unless pursuant to a written order from District, and no claim for an addition to the contract sum shall be valid unless so ordered.

ARTICLE 20. RESOLUTION OF CONSTRUCTION CLAIMS OF \$375,000 OR LESS: For public work claims of \$375,000 or less between Contractor and District, if District has not elected to resolve disputes by arbitration pursuant to article 7.2 (commencing with section 10240) of chapter 1 of part 2 of the Public Contract Code, the provisions of article 1.5 (commencing with section 20104) of chapter 1 of part 3 of the Public Contract Code apply ("Article 1.5").

For purposes of Article 1.5, "public work" has the same meaning as in section 3100 and 3106 of the Civil Code. "Claim" means a separate demand by Contractor for a time extension, or payment of money or damages for work done by or for Contractor, payment for which is not otherwise expressly provided in the contract or to which Contractor would not otherwise be entitled, or a payment disputed by District.

Each claim shall be submitted in writing before the date of final payment and shall include all necessary substantiating documentation. District shall respond in writing within forty-five (45) days of receipt of the claim if the claim is less than \$50,000 ("\$50,000 claim") or within sixty (60) days of receipt of the claim, if the claim is over \$50,000 but less than or equal to \$375,000 ("\$50,000-\$375,000 claim"). In either case, District may request in writing within thirty (30) days of receipt of the claim, any additional documentation supporting the claim or relating to defenses to the claim the District may have against the claimant. Any additional information shall be requested and provided upon mutual agreement of the District and the claimant. District's written response to the claim shall be submitted to claimant within fifteen (15) days after receipt of the further documentation for \$50,000 claims or within thirty (30) days after receipt of the further documentation for \$50,000-\$375,000 claims or within a period of time no greater than that taken by the claimant in producing the additional information, whichever is greater.

Within fifteen (15) days of receipt the District's response, if claimant disputes District's written response or within fifteen (15) days of the District's failure to respond within the time prescribed, the claimant shall provide written notification to District demanding an informal conference to meet and confer ("conference") to be scheduled by the District within thirty (30) days. If the claim or any portion of the claim remains in dispute following the meet and confer ("meet and confer") to be scheduled by the District within 30 days. If the claim or any portion of the claim remains in dispute following the meet and confer conference, the claimant may file a claim as provided in Chapter 1 (commencing with section 900) and Chapter 2 (commencing with section 910) of Part 3 of Division 3.6 of Title 1 of the Government Code. For purposes of those provisions, the period of time within which a claim must be filed is tolled from the time the claimant submits a written claim until the time the claim is denied, including time utilized as a result of the meet and confer process.

If a civil action is filed to resolve claims within sixty (60) days (but no earlier than thirty (30) days) following the filing or responsive pleadings, the court shall submit the matter to nonbinding mediation unless waived by mutual stipulation of both parties. The mediation process shall provide that both parties select a disinterested third person mediator within fifteen (15) days, shall be commenced within thirty (30) days of the submittal and concluded within fifteen (15) days from the commencement of the mediation unless time is extended upon a good case showing to the court or by stipulation of both parties. If the parties fail to select a mediator within the 15-day period, any party may petition the court to appoint the mediator.

If the material remains in dispute, the case shall be submitted to judicial arbitration pursuant to chapter 2.5 (commencing with section 1141.10) of title 3 of part 3 of the Code of Civil Procedure, Revised 10-06-2016

notwithstanding section 1141.11 of that code. The Civil Discovery Act of 1986 (article 3, commencing with section 2016, of chapter 3 of title 3 or part 4 of the Code of Civil Procedure) shall apply to any proceeding brought under this subdivision consistent with the rules pertaining to judicial arbitration. The court may, upon request by any party, order any witness to participate in the mediation or arbitration process.

Notwithstanding any other provision of law, upon stipulation of the parties, arbitrators appointed for purposes of this article shall be experienced in construction law and, upon stipulation of the parties, mediators and arbitrators shall be paid necessary and reasonable hourly rates not to exceed their customary rate. Such fees and expenses shall be paid equally by the parties, except in the case of arbitration where the arbitrator, for good cause, determines a different division. In no event shall state or county funds pay these fees or expenses. Any party who, after receiving an arbitration award requests a trial de novo but does not obtain a more favorable judgement, shall pay the attorney's fees of the other party arising out of the trial de novo in addition to payment of costs and fees required under chapter 2.5 (commencing with section 1141.10) of title 3 of part 3 of the Code of Civil Procedure. District shall not fail to pay any portion of a claim which is undisputed unless otherwise provided herein and shall pay interest at the legal rate commencing on the date the suit is filed in court on any arbitration award or judgement.

ARTICLE 21. DRUG FREE/SMOKE FREE/ALCOHOL FREE POLICY: All District sites are designated drug free/smoke free/alcohol free. The use or abuse of controlled substances, tobacco products and alcohol will not be tolerated.

ARTICLE 22. PAYMENT AND RETENTION (Only applicable if contract amount is \$25,000 or greater): The Contract Sum is stated in the Agreement and, including authorized adjustments, is the total amount payable by the District to the Contractor for performance of the Work under the Contract Documents. Within thirty (30) days after approval of the Request for Payment, Contractor shall be paid a sum equal to ninety-five percent (95%) of the value of the Work performed. The value of the Work completed shall be Contractor best estimate. No inaccuracy or error in said estimate shall operate to release the Contractor, or any surety upon any bond, from damages arising from such Work, or from the District's enforcement of each and every provision of this Contract, and the District shall have the right subsequently to correct any error made in any estimate for payment. The Contractor shall not be entitled to have any payment requests processed, or be entitled to have any payment made for work performed, so long as any lawful or proper direction given by the District concerning the Work, or any portion thereof, remains incomplete. The remaining five percent (5%) of payment will be released the District to the Contractor upon full completion of the Work.

TERMS AND CONDITIONS

ARTICLE 1. WAGE RATES: Pursuant to the provisions of article 2 (commencing at section 1770), chapter 1, part 7, divisions 2 of the Labor Code of California, the Director of Industrial Relations has ascertained the general prevailing rate of per diem wages in the locality in which this public work is to be performed for each craft, classification or type of worker needed to execute the contract. Copies of said determinations are on file at District's principal office and available to any interested party on request. Refer to web site (www.dlr.ca.gov).

Holiday and overtime work, when permitted by law, shall be paid for at a rate of at least one and one-half times the general prevailing rate of per diem wages as determined by the Director of Industrial Relations, unless otherwise specified. Each worker of the Contractor or any of his subcontractors engaged in work on the project shall be paid not less than the general prevailing rate of per diem wages determined by the Director of Industrial Relations, regardless of any contractual relationship which may be alleged to exist between the Contractor or any subcontractor and such workers.

Each worker needed to execute the work on the project shall be paid travel and subsistence payments, as such travel and subsistence payments are defined in the applicable collective bargaining agreements filed with the Department of Industrial Relations in accordance with Labor Code section 1173.8.

The Contractor shall, as a penalty to the District, forfeit not more than fifty dollars (\$50) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the Director of Industrial Relations for the work or craft in which the worker is employed for any public work done under the contract by him or by any subcontractor under him. Prevailing wage rates shall also be used when determining wages paid for change order items. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of the Contractor's mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages, or the previous record of the Contractor in meeting his prevailing wage obligations, or the Contractor's willful failure to pay the correct rates of prevailing wages. The difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the Contractor, and the Contractor shall be bound by the provisions of Labor Code section 1775.

Any worker employed to perform work on the project, which work is not covered by any classification listed in the general prevailing rate of per diem wages determined by the Director of Industrial Relations, shall be paid not less than the minimum rate of wages specified therein for the classification which most nearly corresponds to work to be performed. Such minimum wage rate shall be retroactive to the time of initial employment of such person in such classification.

Pursuant to Labor Code section 1773.1, per diem wages are deemed to include employer payments for health and welfare, pension, vacation, travel time, subsistence pay and similar purposes. Contractor shall post at appropriate conspicuous points on the site of project, a schedule showing all determined minimum wage rates and all authorized deductions, if any, from unpaid wages actually earned.

Contractor and each subcontractor shall keep an accurate payroll record, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him in connection with the public work.

Revised 10-06-2016

The payroll records required above shall be certified and shall be available for inspection at all reasonable hours at the principal office of the Contractor on the following basis:

- a) A certified copy of an employee's payroll record shall be made available for inspection or furnished to such employee or his or her authorized representative on request.
- b) A certified copy of all payroll records shall be made available for inspection or furnished upon request to a representative of District, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations.
- c) A certified copy of all payroll records shall be made available upon request to the public for inspection or copies thereof made; provided, however, that a request by the public shall be made through either the District, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. The public shall not be given access to such records at the principal office of the Contractor.

A Contractor or Subcontractor shall not be qualified to submit a proposal on, be listed on a proposal (subject to the requirements of Public Contract Code section 4104), or engage in the performance of any contract for public work unless currently registered and qualified to perform public work pursuant to Labor Code §1725.5, except under the limited circumstances set forth in Labor Code §1771.1(a). This requirement shall apply to any bid proposal submitted on or after March 1, 2015, and any contract for public work awarded on or after April 1, 2015. The District may not accept a proposal or enter into a contract for a public works project with an unregistered contractor.

Pursuant to Labor Code §1771.4, this Contract is subject to compliance monitoring and enforcement by the Department of Industrial Relations. Each Contractor and Subcontractor performing work on the Project shall be required to comply with the provisions of the California Labor Code, beginning with section 1720, and the regulations of the Department of Industrial Relations' Division of Labor Standards Enforcement (i.e., the Labor Commissioner), including, but not limited to, the standard provisions requiring payment of prevailing wages, maintenance and submission of certified payroll records, and the hiring of apprentices as appropriate. Unless otherwise specified, the Contractor shall be required to post job site notices regarding the requirements of this paragraph, as prescribed by regulation. For all new public works projects awarded on or after April 1, 2015, Contractor and each Subcontractor shall be required to furnish the records specified in Labor Code §1776 directly to the Labor Commissioner at least monthly, or more frequently if specified in the Contract Documents, and in a format prescribed by the Labor Commissioner. This requirement shall apply to all projects, whether new or ongoing, on or after January 1, 2016.

Contractor shall be responsible for complying with the provisions California Labor Code beginning with Section 1720, and the regulations of the Department of Industrial Relations, including, but not limited to, the standard provisions requiring payment of prevailing wages, maintenance and submission of certified weekly payrolls, and hiring of apprenticeship as appropriate. Contractor shall work with the Compliance Monitoring Unit to ensure the full compliance with the Department of Industrial Relations and applicable labor law.

ARTICLE 2. APPRENTICES: Apprentices of any crafts or trades may be employed and, when required by Labor Code section 1777.5, shall be employed provided they are properly indentured to the Contract in full compliance with provisions of the Labor Code. The prime contractor shall bear the responsibility of compliance with Labor Code section 1777.5 for all apprenticeable occupations and agrees that he

Marysville Joint Unified School District

will comply with said section which reads: "Nothing in this chapter shall prevent the employment of properly registered apprentices upon public works. Every apprentice shall be paid the standard wage paid to apprentices under the regulations of the craft or trade at which he is employed, and shall be employed only at the work of the craft or trade to which he is registered."

Only apprentices, as defined in Section 3077, who are in training under apprenticeship standards and written apprentice agreements under Chapter 4 (commencing with Section 3070), of Division 3, of the Labor Code, are eligible to be employed on public works. The employment and training of each apprentice shall be in accordance with the provisions of the apprenticeship standards and apprentice agreements under which he or she is training.

When the contractor to whom the contract is awarded by the District, in performing any of the work under the contract or subcontract, employs workers in any apprenticeable craft or trade, the contractor and subcontractor shall apply to the joint apprenticeship committee administering the apprenticeship standards of the craft or trade in the area of the site of the public work for a certificate approving the contractor or subcontractor under the apprenticeship standards for the employment and training of apprentices in the area or industry affected. However, approval as established by the joint apprenticeship committee or committees shall be subject to approval of the Administrator of Apprenticeship. The joint apprenticeship committee or committees, subsequent to approving the subject contractor or subcontractor, shall arrange for the dispatch of apprentices to the contractor or subcontractor in order to comply with this section. Every contractor and subcontractor shall submit contract award information to the applicable joint apprenticeship committee which shall include an estimate of journeyman hours to be performed under the contract, the number of apprentices to be employed, and the approximate date the apprentices will be employed. There shall be an affirmative duty upon the joint apprenticeship committee or committees administering the apprenticeship standards of the craft or trade in the area of the site of the public work to ensure equal employment and affirmative action in apprenticeship for women and minorities. Contractors or subcontractors shall not be required to submit individual applications for approval to local joint apprenticeship committees provided they are already covered by the local apprenticeship standards. The ratio of work performed by apprentices to journeymen who shall be employed in the craft or trade on the public work may be the ratio stipulated in the apprenticeship standards under which the joint apprenticeship committee operates, but, except as otherwise provided in this section, in no case shall the ratio be less than one hour of apprentice work for every five hours of labor performed by a journeyman. However, the minimum ratio for the land surveyor classification shall not be less than one apprentice for each five journeymen.

Any ratio shall apply during any day or portion of a day when any journeyman, or the higher standard stipulated by the joint apprenticeship committee, is employed at the job site and shall be computed on the basis of the hours worked during the day by journeymen so employed, except for the land surveyor classification. The Contractor shall employ apprentices for the number of hours computed as above before the end of the contract. However, the Contractor shall endeavor, to the greatest extent possible, to employ apprentices during the same time period that the journeymen in the same craft or trade are employed at the job site. Where an hourly apprenticeship ratio is not feasible for a particular craft or trade, the Division of Apprenticeship Standards, upon application of a joint apprenticeship committee, may order a minimum ratio of not less than one apprentice for each five journeymen in a craft or trade classification.

The Contractor or subcontractor, if he is covered by this section, upon the issuance of the approval certificate, or if he has been previously approved in the craft or trade, shall employ the number of apprentices or the ratio of apprentices to journeymen stipulated in the apprenticeship standards. Upon proper showing by the Contractor that he employs apprentices in such craft or trade in the state on all of his

contracts on an annual average of not less than one hour of apprentice work for every five hours of labor performed by a journeyman, or in the land surveyor classification, one apprentice for each five journeymen, the Division of Apprenticeship Standards may grant a certificate exempting the Contractor from the 1-to-5 hourly ratio as set forth in the section. This section shall not apply to contracts of general contractors or to contracts of specialty contractors not bidding for work through a general or prime contractor, when the contracts of general contractors or those specialty contractors involve less than thirty thousand (\$30,000) or 20 working days. This section shall not use any work performed by a journeyman in excess of eight hours per day or 40 hours per week to calculate the hourly ratio.

"Apprenticeable craft or trade," as used in this section, means a craft or trade determined as an apprenticeable occupation in accordance with the rules and regulations prescribed by the Apprenticeship Council. The joint apprenticeship committee shall have the discretion to grant a certificate, which shall be subject to the approval of the Administrator of Apprenticeship, exempting a contractor from the 1-to-5 ratio set forth in this section when it finds that any one of the following conditions is met: a) Unemployment for the previous three-month period in such area exceeds an average of 15 percent. b) The number of apprentices in training in such area exceeds a ratio of 1-to-5. c) If there is a showing that the apprenticeable craft or trade is replacing at least one-third of its journeymen annually through apprenticeship training, either on a statewide basis, or on a local basis. d) Assignment of an apprentice to any work performed under a public works contract would create a condition which would jeopardize his life, or the life, safety, or property of fellow employees or the public at large or if the specific task to which the apprentice is to be assigned is of such a nature that training cannot be provided by a journeyman.

When exemptions are granted to an organization which represents contractors in a specific trade from the 1-to-5 ratio on a local or statewide basis, the member contractors will not be required to submit individual applications for approval to local joint apprenticeship committees, if they are already covered by the local apprenticeship standards.

A contractor to whom the contract is awarded, or any subcontractor under him who, employs journeymen or apprentices in any apprenticeable craft or trade to perform work under the contract and who is not contributing to a fund or funds to administer and conduct the apprenticeship program in any craft or trade in the area of the site of the public work, to which fund or funds other contractors in the area of the site of the public work are contributing, shall contribute to the fund or funds in each craft or trade in which he employs journeymen or apprentices on the public work in the same amount or upon the same basis and in the same manner as the other contractors do. Where the trust fund administrators are unable to accept the fund, contractors not signatory to the trust agreement shall pay a like amount to the California Apprenticeship Council. This contractor or subcontractor may add the amount of the contributions in computing his bid for the contract. The Division of Labor Standards Enforcement is authorized to enforce the payment of the contributions to the fund or funds as set forth in Labor Code Section 227.

The District awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. The stipulations shall fix the responsibility of compliance with this section for all apprenticeable occupations with the prime contractor. All decisions of the joint apprenticeship committee under this section are subject to Labor Code Section 3081.

ARTICLE 3. WORK HOURS: As provided in article 3 (commencing at section 1810), chapter 1, part 7, division 2 of the Labor Code, eight (8) hours of labor shall constitute a legal day's work. The time of service of any worker employed at any time by the Contractor or by any subcontractor on any subcontract under this contract upon the work or upon any part of the work contemplated by this contract is limited and restricted to eight (8) hours during any one-calendar day and forty (40) hours during any one-calendar week, except as hereinafter provided.

Marysville Joint Unified School District

Notwithstanding the provisions hereinabove set forth, work performed by employees of Contractor in excess of eight (8) hours per day, and forty (40) hours during any one week, shall be permitted upon this public work upon compensation for all hours worked in excess of eight (8) hours per day at not less than one and one-half times the basic rate of pay.

The Contractor and every subcontractor shall keep accurate record showing the name and actual hours worked each calendar day and each calendar week by each worker employed by him in connection with the work or any part of the work contemplated by this contract. The record shall be kept open at all reasonable hours to the inspection of the District and the Division of Labor Law Enforcement, Department of Industrial Relations of the State of California.

The Contractor shall pay to the District a penalty of twenty-five dollars (\$25) for each worker employed in the execution of this contract by the Contractor or by any subcontractor or by any subcontractor for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any calendar day and forty (40) hours in any one calendar week in violation of the provisions of article 3 (commencing at section 1810), chapter 1, part 7, division 2 of the Labor Code.

Any work necessary to be performed after regular working hours, or on Sundays or other holidays shall be performed without additional expense to District

ARTICLE 4. SUBCONTRACTING: Contractor agrees to bind every subcontractor by terms of the contract as far as such terms are applicable to subcontractor's work. If Contractor shall subcontract any part of this contract, Contractor shall be fully responsible to District for acts and omissions of subcontractor and of persons either directly or indirectly employed. Nothing contained in contract documents shall create any contractual relation between any subcontractor and District.

ARTICLE 5. ASSIGNMENT: Contractor shall not assign or transfer by operation or law or otherwise any or all of its rights, burdens, duties, or obligations under this contract without prior written consent of District.

ARTICLE 6. WORKERS' COMPENSATION INSURANCE: The Contractor shall provide, during the life of this contract, workers' compensation insurance for all its employees engaged in work under this contract, or at the site of the project, and if work is sublet, the Contractor shall require the subcontractor similarly to provide workers' compensation insurance for all the latter's employees. Any class of employee or employees not covered by a subcontractor's insurance shall be covered by the Contractor's insurance. The Contractor shall provide to the District a Certificate regarding Workers' Compensation available from the District prior to performing the work of the contract.

ARTICLE 7. PROOF OF INSURANCE: Contractor must provide Commercial General Liability Insurance (including automobile insurance) which provides limits of not less than \$1,000,000 per occurrence (combined single limit) and \$2,000,000 Project Specific Aggregate (for this project only). Any general liability policy provided by Contractor hereunder shall contain an endorsement which applies its coverage to District, members of District's Board of Trustees, and the officers, agents, employees and volunteers of District, the State Allocation Board, if applicable, the architect, and the architect's consultants, if applicable, individually and collectively as additional insured. Coverage additional to that shown above to be evidenced in a provided Certificate of Insurance is as follows: Products-Comp/Ops Aggregate \$1,000,000; Automobile \$1,000,000; Personal and Advertising Injury \$1,000,000; Each Occurrence \$1,000,000; Fire Damage minimum \$100,000; Medical Expense (per person) \$5,000. *Activities that place buildings at risk for fire (use of kitchen, portable lighting, heavy electrical gear, etc. must have a \$1,000,000 Property/Fire limit.

ARTICLE 14. COMPLIANCE WITH STORM WATER PERMIT

Contractor shall be required to comply with all conditions of the State Water Resources Control Board ("State Water Board") National Pollutant Discharge Elimination System General Permit for Waste Discharge Requirements for Discharges of Storm Water Runoff Associated with Construction Activity ("Permit") - General NPDES Permit No. CAS000004 adopted by the State Water Resources Control Board. ARTICLE 17. EXCAVATION DEEPER THAN FOUR FEET: If this contract involves digging trenches or other excavations that extend deeper than four feet below the surface, then all of the following apply:

- a. The Contractor shall promptly, and before the following conditions are disturbed, notify the District, in writing of any: (1) Material that the Contractor believes may be material that is hazardous waste, as defined in section 25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law. (2) Subsurface or latent physical conditions at the site differing from those indicated. (3) Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this contract.
- b. Upon receiving any such notice, the District shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the Contractor's cost of, or the time required for, performance of any part of the work shall issue a change order under the procedures described in this contract.
- c. In the event that a dispute arises between the District and the Contractor whether the conditions materially differ or involve hazardous waste, or cause a decrease or increase in the Contractor's cost of, or time required for, performance of any part of the work, the Contractor shall not be excused from any scheduled completion date provided for by this contract, but shall proceed with all work to be performed under the contract. A contractor shall retain any and all rights provided either by contract or by law, which pertain to the resolution of disputes and protest between the contracting parties.

ARTICLE 18. REMOVAL OR RELOCATION OF MAIN OR TRUNKLINE UTILITY FACILITIES:

The Contractor shall not be assessed for liquidated damages for delay in completion of this project, when such delay was caused by the failure of the awarding authority of this contract or the owner of the utility to provide for removal or relocation of the existing main or trunkline utility facilities; however, when the Contractor is aware that removal or relocation of an existing utility has not been provided for, Contractor shall promptly notify the awarding authority and the utility in writing, so that provision for such removal or relocation may be made to avoid and minimize any delay which might be caused by the failure to remove or relocate the main or trunkline utility facilities, or to provide for its removal or relocation. In accordance with section 4215 of the Government Code, if the Contractor while performing the contract discovers any existing main or trunkline utility facilities not identified by the public agency in the contract plans or specifications, he shall immediately notify the public agency and utility in writing. The public utility, where they are the owners, shall have the sole discretion to perform repairs or relocation work or permit the Contractor to do such repairs or relocation work at a reasonable price. The Contractor shall be compensated for the costs of locating, repairing damage not due to the failure of the Contractor to exercise reasonable care, and removing or relocating such utility facilities not indicated in the plans and specifications with reasonable accuracy, and for equipment on the project necessarily idled during such work.

ARTICLE 19. CHANGE ORDERS: Change orders may not cause the total aggregate cost of the project to exceed \$45,000 or the project will become subject to California Uniform Public Construction Cost Accounting Act (CUPCCAA) bid regulations. The District, without invalidating contract, and as provided by law, may order extra work or make changes by altering, adding to, or deducting from work, the contract sum being adjusted accordingly. All such work shall be subject to prevailing wage rates and shall be executed under the conditions of the original contract except that any claim for extension of time caused thereby shall be adjusted at the time of ordering such change. In giving instructions, Contractor agrees that the District shall

Marysville Joint Unified School District

have authority to make minor changes in work, not involving change in cost, and not inconsistent with the purposes or approvals of the project. Otherwise, except in an emergency endangering life or property, no extra work or change shall be made unless pursuant to a written order from District, and no claim for an addition to the contract sum shall be valid unless so ordered.

ARTICLE 20. RESOLUTION OF CONSTRUCTION CLAIMS OF \$375,000 OR LESS: For public work claims of \$375,000 or less between Contractor and District, if District has not elected to resolve disputes by arbitration pursuant to article 7.2 (commencing with section 10240) of chapter 1 of part 2 of the Public Contract Code, the provisions of article 1.5 (commencing with section 20104) of chapter 1 of part 3 of the Public Contract Code apply ("Article 1.5").

For purposes of Article 1.5, "public work" has the same meaning as in section 3100 and 3106 of the Civil Code. "Claim" means a separate demand by Contractor for a time extension, or payment of money or damages for work done by or for Contractor, payment for which is not otherwise expressly provided in the contract or to which Contractor would not otherwise be entitled, or a payment disputed by District.

Each claim shall be submitted in writing before the date of final payment and shall include all necessary substantiating documentation. District shall respond in writing within forty-five (45) days of receipt of the claim if the claim is less than \$50,000 ("\$50,000 claim") or within sixty (60) days of receipt of the claim, if the claim is over \$50,000 but less than or equal to \$375,000 ("\$50,000-\$375,000 claim"). In either case, District may request in writing within thirty (30) days of receipt of the claim, any additional documentation supporting the claim or relating to defenses to the claim the District may have against the claimant. Any additional information shall be requested and provided upon mutual agreement of the District and the claimant. District's written response to the claim shall be submitted to claimant within fifteen (15) days after receipt of the further documentation for \$50,000 claims or within thirty (30) days after receipt of the further documentation for \$50,000-\$375,000 claims or within a period of time no greater than that taken by the claimant in producing the additional information, whichever is greater.

Within fifteen (15) days of receipt the District's response, if claimant disputes District's written response or within fifteen (15) days of the District's failure to respond within the time prescribed, the claimant shall provide written notification to District demanding an informal conference to meet and confer ("conference") to be scheduled by the District within thirty (30) days. If the claim or any portion of the claim remains in dispute following the meet and confer ("meet and confer") to be scheduled by the District within 30 days. If the claim or any portion of the claim remains in dispute following the meet and confer conference, the claimant may file a claim as provided in Chapter 1 (commencing with section 900) and Chapter 2 (commencing with section 910) of Part 3 of Division 3.6 of Title 1 of the Government Code. For purposes of those provisions, the period of time within which a claim must be filed is tolled from the time the claimant submits a written claim until the time the claim is denied, including time utilized as a result of the meet and confer process.

If a civil action is filed to resolve claims within sixty (60) days (but no earlier than thirty (30) days) following the filing or responsive pleadings, the court shall submit the matter to nonbinding mediation unless waived by mutual stipulation of both parties. The mediation process shall provide that both parties select a disinterested third person mediator within fifteen (15) days, shall be commenced within thirty (30) days of the submittal and concluded within fifteen (15) days from the commencement of the mediation unless time is extended upon a good case showing to the court or by stipulation of both parties. If the parties fail to select a mediator within the 15-day period, any party may petition the court to appoint the mediator.

If the material remains in dispute, the case shall be submitted to judicial arbitration pursuant to chapter 2.5 (commencing with section 1141.10) of title 3 of part 3 of the Code of Civil Procedure, Revised 10-06-2016

notwithstanding section 1141.11 of that code. The Civil Discovery Act of 1986 (article 3, commencing with section 2016, of chapter 3 of title 3 or part 4 of the Code of Civil Procedure) shall apply to any proceeding brought under this subdivision consistent with the rules pertaining to judicial arbitration. The court may, upon request by any party, order any witness to participate in the mediation or arbitration process.

Notwithstanding any other provision of law, upon stipulation of the parties, arbitrators appointed for purposes of this article shall be experienced in construction law and, upon stipulation of the parties, mediators and arbitrators shall be paid necessary and reasonable hourly rates not to exceed their customary rate. Such fees and expenses shall be paid equally by the parties, except in the case of arbitration where the arbitrator, for good cause, determines a different division. In no event shall state or county funds pay these fees or expenses. Any party who, after receiving an arbitration award requests a trial de novo but does not obtain a more favorable judgement, shall pay the attorney's fees of the other party arising out of the trial de novo in addition to payment of costs and fees required under chapter 2.5 (commencing with section 1141.10) of title 3 of part 3 of the Code of Civil Procedure. District shall not fail to pay any portion of a claim which is undisputed unless otherwise provided herein and shall pay interest at the legal rate commencing on the date the suit is filed in court on any arbitration award or judgement.

ARTICLE 21. DRUG FREE/SMOKE FREE/ALCOHOL FREE POLICY: All District sites are designated drug free/smoke free/alcohol free. The use or abuse of controlled substances, tobacco products and alcohol will not be tolerated.

ARTICLE 22. PAYMENT AND RETENTION (Only applicable if contract amount is \$25,000 or greater): The Contract Sum is stated in the Agreement and, including authorized adjustments, is the total amount payable by the District to the Contractor for performance of the Work under the Contract Documents. Within thirty (30) days after approval of the Request for Payment, Contractor shall be paid a sum equal to ninety-five percent (95%) of the value of the Work performed. The value of the Work completed shall be Contractor best estimate. No inaccuracy or error in said estimate shall operate to release the Contractor, or any surety upon any bond, from damages arising from such Work, or from the District's enforcement of each and every provision of this Contract, and the District shall have the right subsequently to correct any error made in any estimate for payment. The Contractor shall not be entitled to have any payment requests processed, or be entitled to have any payment made for work performed, so long as any lawful or proper direction given by the District concerning the Work, or any portion thereof, remains incomplete. The remaining five percent (5%) of payment will be released the District to the Contractor upon full completion of the Work.

Prior to the expiration of the 45-day cure period, DISTRICT may submit a written request for additional time to cure the Event of Default upon a showing that DISTRICT has commenced its efforts to cure the Event of Default and that the Event of Default cannot be reasonably cured within the 45-day cure period. The foregoing notwithstanding, an Event of Default dealing with DISTRICT's failure to timely pay any undisputed sums to CONTRACTOR as provided under Section 1.4, above, shall be cured by DISTRICT within five (5) calendar days from the date of CONTRACTOR's Default Notice to DISTRICT.
- D. DISTRICT, in its sole and absolute discretion, may also immediately suspend CONTRACTOR's performance under this Agreement pending CONTRACTOR's cure of any Event of Default by giving CONTRACTOR written notice of DISTRICT's intent to suspend CONTRACTOR's performance (hereinafter, a "Suspension Notice"). DISTRICT may issue the Suspension Notice at any time upon the occurrence of an Event of Default. 5.3 SCOPE OF WAIVER: No waiver of any default or breach under this Agreement shall constitute a waiver of any other default or breach, whether of the same or other covenant, warranty, agreement, term, condition, duty or requirement contained in this

Agreement. No waiver, benefit, privilege, or service voluntarily given or performed by a Party shall give the other Party any contractual rights by custom, estoppel, or otherwise.

INDEPENDENT AUDITORS' REPORT

Board of Trustees
Marysville Joint Unified School District
Marysville, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Marysville Joint Unified School District, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Marysville Joint Unified School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Marysville Joint Unified School District, as of June 30, 2016, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, such as management's discussion and analysis, budgetary comparison information, schedule of funding progress for OPEB benefits, schedules of proportionate share of net pension liability, and schedules of District contributions for pensions be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Marysville Joint Unified School District's basic financial statements. The supplementary information listed in the table of contents, including the schedule of expenditures of Federal awards, which is required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2016 on our consideration of Marysville Joint Unified School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. In any such case, the bid specification shall provide a time period, before and/or after the award of the contract, for the contractor to submit data substantiating the request for substituting the designated material, product, thing, or service. If no such time period is specified, the contractor may submit the data within 35 days after the award of the contract.

When the bid is for a roof project, a material, product, thing, or service is considered "equal" to that designated if it is equal in quality, durability, design, and appearance; will perform the intended function equally well; and conforms substantially to the detailed requirements in the bid specification. (~~Public Contract Code 3002~~)

Alternatively, if the public corporation or agency has an existing contract with a vendor for the lease or purchase of personal property, the district may authorize the lease or purchase of personal property directly from the vendor and make payments under the same terms that are available to the public corporation or agency under the contract. (Public Contract Code 20118)

Without advertising for bids, the Board may enter into an energy service contract and any related facility ground lease, when it determines that the terms of the contract and lease are in the best interest of the district **and meet the cost effectiveness requirements specified in Government Code 4217.12**. The Board's determination shall be made at a regularly scheduled public hearing of which notice is given to the public at least two weeks in advance and shall be based on cost **and savings** comparison findings specified in Government Code 4217.12. (Government Code 4217.12)

Supplementary textbooks, library books, educational films, audiovisual materials, test materials, workbooks, instructional computer software packages, or periodicals may be purchased in any amount without taking estimates or advertising for bids. (Public Contract Code 20118.3)

Perishable foodstuffs and seasonal commodities needed in the operations of cafeterias may be purchased through bid or on the open market. (Education Code 38083)

Bids shall not be required for day labor under circumstances specified in Public Contract Code 20114. Day labor shall include the use of maintenance personnel employed on a permanent or temporary basis. (Public Contract Code 20114)

In an emergency when any repairs, alterations, work, or improvement to any school facility is necessary to permit the continuance of existing school classes or to avoid danger to life or property, the Board may, by unanimous vote and with the approval of the County Superintendent of Schools, contract for labor and materials or supplies without advertising for or inviting bids or may authorize the use of day labor or force account for the emergency purpose. (Public Contract Code 1102, 20113)

The district may purchase any surplus property from the federal government or any of its agencies in any quantity needed for the operation of its schools without taking estimates or advertising for bids. (Education Code 17602)

Uniform Public Construction Cost Accounting Principles

In awarding contracts for public works projects involving district facilities, the Governing Board desires to obtain the best value to the district and ensure the qualifications of contractors to complete the project in a satisfactory manner. The Board has, by resolution, adopted the procedures set forth in the Uniform Public Construction Cost Accounting Act pursuant to Public Contract Code 22030-22045, including ~~the required cost accounting procedures and~~ the informal bidding procedures when allowed by law.

(cf. 3311 - Bids)

(cf. 7110 - Facilities Master Plan)

The Board delegates to the Superintendent or designee the responsibilities to award any contract eligible for informal bidding procedures and to develop plans, specifications, and working details for all public projects requiring formal bidding procedures.

No work, project, service, or purchase shall be split or separated into smaller work orders or projects for the purpose of evading legal requirements for competitive bidding. (Public Contract Code 22033)

Projects awarded through the UPCCAA shall be subject to the cost accounting procedures established by the California Uniform Construction Cost Accounting Commission. (Public Contract Code 22030)

Emergency Actions

When formal bids are required by law but an emergency necessitates immediate repair or replacements, the Board may, upon a five-sevenths vote of the Board, proceed to replace or repair a facility without adopting plans, specifications, strain sheets, or working details; or giving notice for bids to let contracts. The work may be done by day labor under the direction of the Board and/or contractor. The emergency action shall subsequently be reviewed by the Board in accordance with Public Contract Code 22050 and shall be terminated at the earliest possible date that conditions warrant, so that the remainder of the emergency action may be completed by giving notice for bids to let contracts. AR 3311.1

Uniform Public Construction Cost Accounting Principles

Procedures for awarding contracts for public works projects shall be determined on the basis of the amount of the project, as follows:

1. Public projects of \$45,000 or less may be performed by district employees by force account, negotiated contract, or purchase order. (Public Contract Code 22032)
2. Contracts for public projects of \$175,000 or less may be awarded through the following informal procedures: (Public Contract Code 22032, 22034, 22038)
 - a. The Superintendent or designee shall maintain a list of qualified contractors, identified according to categories of work.
 - b. The Superintendent or designee shall prepare a notice inviting informal bids which describes the project in general terms, explains how to obtain more information about the project, and states the time and place for submission of bids. The notice shall be disseminated by mail, fax, or email to all contractors on the district's list for the category of work being bid, unless the product or service is proprietary, at least 10 calendar days before bids are due. In addition, the Superintendent or designee may mail, fax, or email a notice inviting informal bids to all construction trade journals identified pursuant to Public Contract Code 22036.
 - c. The district shall review the informal bids and award the contract, except that:
 - (1) If all bids received through the informal process are in excess of \$175,000, the contract may be awarded to the lowest responsible bidder, provided that the Governing Board adopts a resolution with a four-fifths vote to award the contract at \$187,500 or less and the Board determines the district's cost estimate is reasonable.
 - (2) If no bids are received through the informal bid procedure, the project may be performed by district employees by force account or negotiated contract.
3. Public projects of more than \$175,000 shall, except as otherwise provided by law, be subject to formal bidding procedures, as follows: (Public Contract Code 22032, 22037, 22038)
 - a. Notice inviting formal bids shall state the time and place for receiving and opening sealed bids and distinctly describe the project. The notice shall be disseminated in both of the following ways:

- (1) Through publication in a newspaper of general circulation in the district's jurisdiction or, if there is no such newspaper, then by posting the notice in at least three places designated by the district as places for posting its notices. Such notice shall be published at least 14 calendar days before the date that bids will be opened.
- (2) By mail and electronically, if available, by either fax or email, to all construction trade journals identified pursuant to Public Contract Code 22036. Such notice shall be sent at least 15 calendar days before the date that bids will be opened.

In addition to the notice required above, the district may give such other notice as it deems proper.

b. The district shall award the contract as follows:

- (1) The contract shall be awarded to the lowest responsible bidder. If two or more bids are the same and the lowest, the district may accept the one it chooses.
- (2) At its discretion, the district may reject all bids presented and declare that the project can be more economically performed by district employees, provided that the district notifies an apparent low bidder, in writing, of the district's intention to reject the bid. Such notice shall be mailed at least two business days prior to the hearing at which the district intends to reject the bid.
- (3) If no bids are received through the formal bid procedure, the project may be performed by district employees by force account or negotiated contract.

Lease-Leaseback Contracts

The district may lease currently owned district property to any person, firm, or corporation for a minimum of \$1 per year, as long as the lease requires the person, firm, or corporation to construct a building or buildings on the property for the district's use during the lease and the property and building(s) will vest in the district at the expiration of the lease ("lease-leaseback"). (Education Code 17406)

(cf. 3280 - Sale or Lease of District-Owned Real Property)

(cf. 3312 - Contracts)

Any lease-leaseback contract shall be awarded through a competitive "best value" procurement process whereby a person, firm, or corporation is selected on the basis of objective criteria for evaluating the qualifications of proposers, with the resulting selection representing the best combination of price and qualifications. To make this determination, the district shall use the following procedures: (Education Code 17400, 17406)

1. Request for Sealed Proposals: The Superintendent or designee shall prepare a request for sealed proposals which shall include:
 - a. An estimate of the project's price
 - b. A clear, precise description of any preconstruction services that may be required and the facilities to be constructed
 - c. The key elements of the contract to be awarded
 - d. A description of the format that proposals shall follow and the elements they shall contain
 - e. The standards the district will use in evaluating proposals
 - f. The date on which proposals are due
 - g. The timetable the district will follow in reviewing and evaluating proposals
2. Notice: At least 10 days before the date for receipt of the proposals, the Superintendent or designee shall give notice of the request for sealed proposals using both of the following methods:
 - a. Providing notice at least once a week for two weeks in a local newspaper of general circulation pursuant to Public Contract Code 20112

- b. Providing notice in a trade paper of general circulation published in the county where the project is located

The Superintendent or designee also may post the notice on the district's web site or through an electronic portal.

3. Prequalification: A proposer shall be prequalified in accordance with Public Contract Code 20111.6(b)-(m) in order to submit a proposal. Any electrical, mechanical, and plumbing subcontractors shall be subject to the same prequalification requirements.

(cf. 3311 - Bids)

4. Evaluation Criteria: The request for sealed proposals shall identify all criteria that the district will consider in evaluating the proposals and qualifications of the proposers, including relevant experience, safety record, price proposal, and other factors specified by the district. The price proposal shall include, at the district's discretion, either a lump-sum price for the contract to be awarded or the proposer's proposed fee to perform the services requested, including the proposer's proposed fee to perform preconstruction services or any other work related to the facilities to be constructed, as requested by the district.

The request for sealed proposals shall specify whether each criterion will be evaluated on a pass-fail basis or will be scored as part of the "best value" score, and whether proposers must achieve any minimum qualification score for award of the contract. For each scored criterion, the district shall identify the methodology and rating or weighting system that will be used by the district in evaluating the criterion, including the weight assigned to the criterion and any minimum acceptable score.

5. Evaluation of Proposals: All proposals received shall be reviewed to determine whether they meet the format requirements and the standards specified in the request for sealed proposals. The district shall evaluate the qualifications of the proposers based solely upon the criteria and evaluation methodology set forth in the request for sealed proposals, and shall assign a best value score to each proposal. Once the evaluation is complete, all responsive proposals shall be ranked from the highest best value to the lowest best value to the district.

6. Award of Contract: The award of the contract shall be made by the Governing Board to the responsive proposer whose proposal is determined, in writing by the Board, to be the best value to the district.

If the selected proposer refuses or fails to execute the tendered contract, the Board may award the contract to the proposer with the second highest best value score, if deemed in the best interest of the district. If that proposer then refuses or fails to execute the tendered contract, the Board may award the contract to the proposer with the third highest best value score.

Upon issuance of a contract award, the district shall publicly announce its award, identifying the entity to which the award is made, along with a statement regarding the basis of the award. The statement regarding the contract award and the contract file shall provide sufficient information to satisfy an external audit.

7. Rejection of Proposals: At its discretion, the Board may reject all proposals and request new proposals.

Prior to entering into a lease-leaseback agreement, the Superintendent or designee shall have on file the contractor's enforceable commitment that the contractor and its subcontractors at every tier will use a skilled and trained workforce to perform all work on the project or contract that falls within an apprenticeable occupation in the building and construction trades. (Education Code ~~17406~~, 17407.5)

Any lease-leaseback agreement shall be reviewed by the district's legal counsel to ensure that all required terms, including a lease term that provides for the district's occupancy of the building or improved property during the lease and an appropriate financing component, are included in the agreement.

Design-Build Contracts

The Governing Board may approve a contract with a single entity for both design and construction of any school facility in excess of \$1,000,000, awarding the contract to either the low bid or the best value as determined by evaluation of objective criteria. (Education Code 17250.20)

(cf. 3311 - Bids)

(cf. 3312 - Contracts)

(cf. 7110 - Facilities Master Plan)

(cf. 7140 - Architectural and Engineering Services)

Design-build documents shall not include provisions for long-term project operations, but may include operations during a training or transition period. (Education Code 17250.25)

The procurement process for design-build projects shall be as follows: (Education Code 17250.25, 17250.35)

1. The district shall prepare a set of documents setting forth the scope and estimated price of the project. The documents may include, but are not limited to:
 - a. The size, type, and desired design character of the project;
 - b. Performance specifications that covering the quality of materials, equipment, and workmanship
 - c. Preliminary plans or building layouts
 - d. Any other information deemed necessary to describe adequately the district's needs;

The performance specifications and any plans shall be prepared by a design professional who is duly licensed and registered in California.

2. The district shall prepare and issue a request for qualifications in order to prequalify, or develop a short list of, the design-build entities whose proposals shall be evaluated for final selection. The request for qualifications shall include, but is not limited to, all of the following elements:
 - a. Identification of the basic scope and needs of the project or contract, the expected cost range, the methodology that will be used by the district to evaluate proposals, the procedure for final selection of the design-build entity,

and any other information deemed necessary by the district to inform interested parties of the contracting opportunity

- b. Significant factors that the district reasonably expects to consider in evaluating qualifications, including technical design and construction expertise, acceptable safety record, and all other non-price-related factors
- c. A standard template request for statements of qualifications prepared by the district, which shall contain all of the information required pursuant to Education Code 17250.25

The district also may identify specific types of subcontractors that must be included in the statement of qualifications and proposal.

A design-build entity shall not be prequalified or short-listed unless the entity provides an enforceable commitment to the district that the entity and its subcontractors at every tier will use a skilled and trained workforce, as defined in Education Code 17250.25, to perform all work on the project or contract that falls within an apprenticeable occupation in the building and construction trades. The entity may demonstrate such commitment through a project labor agreement, by becoming a party to the district's project labor agreement, or through an agreement with the district to provide evidence of compliance on a monthly basis during the performance of the project or contract.

- 3. The district shall prepare a request for proposals (RFP) that invites prequalified or short-listed entities to submit competitive sealed proposals in a manner prescribed by the district. The RFP shall include the information identified in items #2a and 2b above and the relative importance or weight assigned to each of the factors. If the district uses a best value selection method for a project, the district may reserve the right to request proposal revisions and hold discussions and negotiations with responsive proposers, in which case the district shall so specify in the request for proposals and shall publish separately or incorporate into the request for proposals applicable procedures to be observed by the district to ensure that any discussions or negotiations are conducted in good faith.
- 4. For those projects utilizing low bid as the final selection method, the bidding process shall result in lump-sum bids by the prequalified or short-listed design-build entities, and the contract shall be awarded to the lowest responsible bidder.
- 5. For those projects utilizing best value as a selection method, the following procedures shall be used:
 - a. Competitive proposals shall be evaluated using only the criteria and selection procedures specifically identified in the request for proposals. Criteria shall be weighted as deemed appropriate by the district and shall, at a minimum, include price, unless a stipulated sum is specified; technical design and construction experience; and life-cycle costs over 15 or more years.

- b. Following any discussions or negotiations with responsive proposers and completion of the evaluation process, the responsive proposers shall be ranked on a determination of value provided, provided that no more than three proposers are required to be ranked.
- c. The contract shall be awarded to the responsible entity whose proposal is determined by the district to have offered the best value to the public.
- d. The district shall publicly announce the contract award, identifying the entity to which the award is made and the basis of the award. This statement and the contract file shall provide sufficient information to satisfy an external audit.

Procurement of Technological Equipment

Rather than seek competitive bids, the district may use competitive negotiation when it makes a finding that a district procurement is for computers, software, telecommunications equipment, microwave equipment, or other related electronic equipment and apparatus. Competitive negotiation shall not be used to contract for any product that is available in substantial quantities to the general public. (Public Contract Code 20118.2)

(cf. 0440 - District Technology Plan)

(cf. 3230 - Federal Grant Funds)

(cf. 3311 - Bids)

(cf. 3312 - Contracts)

Whenever the competitive negotiation process is determined to be appropriate for such procurements, the district shall use the following procedures: (Public Contract Code 20118.2)

1. The Superintendent or designee shall prepare a request for proposals (RFP) that shall be submitted to an adequate number of qualified sources, as determined by the district, to permit reasonable competition consistent with the nature and requirement of the procurement.
2. Notice of the RFP shall be published at least twice in a newspaper of general circulation, at least 10 days before the date for receipt of the proposals.
3. The Superintendent or designee shall make every effort to generate the maximum feasible number of proposals from qualified sources, and shall make a finding to that effect before proceeding to negotiate if only a single response to the RFP is received.
4. The RFP shall identify all significant evaluation factors, including price, and their relative importance.
5. The Superintendent or designee shall provide reasonable procedures for the technical evaluation of the RFPs received, the identification of qualified sources, and the selection for the award of the contract.
6. The Governing Board shall award the contract to the qualified bidder whose proposal meets the evaluation standards and will be most advantageous to the district, considering price and all other factors.
7. If the Board does not award the contract to the bidder whose proposal contains the lowest price, then the Board shall make a finding setting forth the basis for the award to another bidder.

8. The Board, at its discretion, may reject all proposals and request new RFPs.

Provisions in any contract concerning utilization of small business enterprises that are in accordance with the RFP shall not be subject to negotiation with the successful proposer. (Public Contract Code 20118.2)

Debt Issuance and Management

The Governing Board is committed to long-term capital and financial planning and recognizes that the issuance of debt is a key source for funding the improvement and maintenance of school facilities and managing cash flow. Any debt issued by the district shall be consistent with law and this policy.

(cf. 3000 - Concepts and Roles)

(cf. 3460 - Financial Reports and Accountability)

(cf. 7110 - Facilities Master Plan)

(cf. 7210 - Facilities Financing)

The district shall not enter into indebtedness or liability that in any year exceeds the income and revenue provided for such year, unless two-thirds of the voters approve the obligation or one of the exceptions specified in law applies. (California Constitution, Article 16, Section 18)

When the Board determines that it is in the best interest of the district, the Board may issue debt or order an election to issue debt. The Superintendent or designee shall make recommendations to the Board regarding appropriate financing methods for capital projects or other projects that are authorized purposes for debt issuance. When approved by the Board and/or the voters as applicable, the Superintendent or designee shall administer and coordinate the district's debt issuance program and activities, including the timing of issuance, sizing of issuance, method of sale, structuring of the issue, and marketing strategies.

The Superintendent or designee shall retain a financial advisor, municipal advisor, investment advisor, and other financial services professionals as needed to assist with the structuring of the debt issuance and to provide general advice on the district's debt management program, financing options, investments, and compliance with legal requirements. Contracts for services provided by such advisors may be for a single transaction or for multiple transactions, consistent with the contracting requirements in Education Code 17596. In the event that the district issues debt through a negotiated sale, underwriters may be selected for multiple transactions if multiple issuances are planned for the same project. In addition, the district shall select a legal team on an as-needed basis to assist with debt issuances or special projects.

(cf. 3312 - Contracts)

(cf. 3600 - Consultants)

(cf. 9270 - Conflict of Interest)

Goals

The district's debt issuance activities and procedures shall be aligned with the district's vision and goals for providing adequate facilities and programs that support student learning and well-being. When issuing debt, the district shall ensure that it:

1. Maintains accountability for the fiscal health of the district, including prudent management and transparency of the district's financing programs
2. Attains the best possible credit rating for each debt issue in order to reduce interest costs, within the context of preserving financial flexibility and meeting capital funding requirements
3. Takes all practical precautions and proactive measures to avoid any financial decision that will negatively impact current credit ratings on existing or future debt issues
4. Maintains effective communication with rating agencies and, as appropriate, credit enhancers such as bond insurers or other providers of credit or liquidity instruments in order to enhance the creditworthiness, liquidity, or marketability of the debt
5. Monitors the district's statutory debt limit in relation to assessed valuation within the district and the tax burden needed to meet long-term debt service requirements
6. When determining the timing of debt issuance, considers market conditions, cash flows associated with repayment, and the district's ability to expend the obtained funds in a timely, efficient, and economical manner consistent with federal tax laws
7. Determines the amortization (maturity) schedule which will fit best within the overall debt structure of the district at the time the new debt is issued
8. Considers the useful lives of assets funded by the debt issue, as well as repair and replacement costs of those assets to be incurred in the future
9. Preserves the availability of the district's general fund for operating purposes and other purposes that cannot be funded by the issuance of voter-approved debt
10. Meets the ongoing obligations and accountability requirements associated with the issuance and management of debt under state and federal tax and securities laws

(cf. 0000 - Vision)

(cf. 0200 - Goals for the School District)

(cf. 7000 - Concepts and Roles)

Authorized Purposes for the Issuance of Debt

The district may issue debt for any of the following purposes:

1. To pay for the cost of capital improvements, including acquiring, constructing, reconstructing, rehabilitating, replacing, improving, extending, enlarging, and/or equipping district facilities
2. To refund existing debt
3. To provide for cash flow needs

(cf. 3100 - Budget)

(cf. 3110 - Transfer of Funds)

Pursuant to Government Code 53854, general operating costs, including, but not limited to, items normally funded in the district's annual operating budget, shall not be financed from debt payable later than 15 months from the date of issuance. The district may deem it desirable to finance cash flow requirements under certain conditions so that available resources better match expenditures within a given fiscal year. To satisfy both state constitutional and statutory constraints, such cash flow borrowing shall be payable from taxes, income, revenue, cash receipts, and other moneys attributable to the fiscal year in which the debt is issued.

Authorized Types of Debt

The Superintendent or designee shall recommend to the Board potential financing method(s) that result in the highest benefit to the district, with the cost of staff and consultants considered. Potential financing sources may include:

1. Short-Term Debt
 - a. Short-term debt, such as tax and revenue anticipation notes (TRANs), when necessary to allow the district to meet its cash flow requirements (Government Code 53850-53858)
 - b. Bond anticipation notes (BANs) to provide interim financing for capital bond projects that will ultimately be paid from general obligation bonds (Education Code 15150)
 - c. Grant anticipation notes (GANs) to provide interim financing pending the receipt of grants and/or loans from the state or federal government that have been appropriated and committed to the district (Government Code 53859-53859.08)
2. Long-Term Debt
 - a. General obligation bonds for projects approved by voters (California Constitution, Article 13A, Section 1; Education Code 15100-15262, 15264-15276; Government Code 53506-53509.5)

(cf. 7214 - General Obligation Bonds)

- b. Special tax bonds issued pursuant to the Mello-Roos Community Facilities Act of 1982 (Government Code 53311-53368.3)

(cf. 7212 - Mello Roos Districts)

- 3. Lease financing, including certificates of participation (COPs)
 - a. Lease financing to fund the highest priority capital equipment purchases when pay-as-you-go financing is not feasible (Education Code 17450-17453.1)
 - b. Lease financing to fund facilities projects when there is insufficient time to obtain voter approval or in instances where obtaining voter approval is either not feasible or unavailable (Education Code 17400-17429)
- 4. Special financing programs or structures offered by the federal or state government, such as Qualified Zone Academy Bonds or other tax credit obligations or obligations that provide subsidized interest payments, when the use of such programs or structures is determined to result in sufficiently lower financing costs compared to traditional tax-exempt bonds and/or COPs
- 5. Temporary borrowing from other sources such as the County Treasurer

COPs, TRANs, revenue bonds, or any other non-voter approved debt instrument shall not be issued by the district in any fiscal year in which the district has a qualified or negative certification, unless the County Superintendent of Schools determines, pursuant to criteria established by the Superintendent of Public Instruction, that the district's repayment of that indebtedness is probable. (Education Code 42133)

Relationship of Debt to District Facilities Program and Budget

Decisions regarding the issuance of debt for the purpose of financing capital improvement shall be aligned with current needs for acquisition, development, and/or improvement of district property and facilities as identified in the district's facilities master plan or other applicable needs assessment, the projected costs of those needs, schedules for the projects, and the expected resources.

The cost of debt issued for major capital repairs or replacements shall be evaluated against the potential cost of delaying such repairs and/or replacing such facilities.

When considering a debt issuance, the Board and the Superintendent or designee shall evaluate both the short-term and long-term implications of the debt issuance and additional operating costs associated with the new projects involved. Such evaluation may include, but is not limited to, the projected ratio of annual debt service to the tax burden on the district's taxpayers and the ratio of annual debt service secured by the general fund to general fund expenditures.

The district may enter into credit enhancement agreements such as municipal bond insurance, surety bonds, letters of credit, and lines of credit with commercial banks, municipal bond

insurance companies, or other financial entities when their use is judged to lower borrowing costs, eliminate restrictive covenants, or have a net economic benefit to the financing.

Structure of Debt Issues

The district shall consider the overall impact of the current and future debt burden of the financing when determining the duration of the debt issue.

The district shall design the financing schedule and repayment of debt so as to take best advantage of market conditions, ensure cost effectiveness, provide flexibility, and, as practical, recapture or maximize its debt capacity for future use. Principal amortization will be structured to meet debt repayment, tax rate, and flexibility goals.

For new money debt issuances for capital improvements, the district shall size the debt issuance with the aim of funding capital projects as deemed appropriate by the Board, as long as the issuance is consistent with the overall financing plan, does not exceed the amount authorized by voters, and, unless a waiver is sought and received from the state, will not cause the district to exceed the limitation on debt issuances specified in the California Constitution or Education Code 15106.

To the extent practicable, the district shall also consider credit issues, market factors, and tax law when sizing the district's bond issuance. The sizing of refunding bonds shall be determined by the amount of money that will be required to cover the principal of, any accrued interest on, and any redemption premium for the debt to be paid on the call date and to cover appropriate financing costs.

Any general obligation bond issued by the district shall mature within 40 years of the issuance date or as otherwise required by law. (California Constitution, Article 16, Section 18; Government Code 53508.6)

The final maturity of equipment or real property lease obligations will be limited to the useful life of the assets to be financed but, with respect to a lease purchase of equipment, no longer than a period of 10 years. (Education Code 17452)

Method of Sale

For the sale of any district-issued debt, the Superintendent or designee shall recommend the method of sale with the potential to achieve the lowest financing cost and/or to generate other benefits to the district. Potential methods of sale include:

1. A competitive bidding process through which the award is based on, among other factors, the lowest offered true interest cost
2. Negotiated sale, subject to approval by the district to ensure that interest costs are in accordance with comparable market interest rates
3. Private placement sale, when the financing can or must be structured for a single or limited number of purchasers or where the terms of the private placement are more beneficial to the district than either a negotiated or competitive sale

Investment of Proceeds

The district shall actively manage the proceeds of debt issued for public purposes in a manner that is consistent with state law governing the investment of public funds and with the permitted securities covenants of related financing documents executed by the district. Where applicable, the district's official investment policy and legal documents for a particular debt issuance shall govern specific methods of investment of bond-related proceeds. Preservation of principal shall be the primary goal of any investment strategy, followed by the availability of funds and then by return on investment.

(cf. 3430 - Investing)

With regard to general obligation bonds, the district shall invest new money bond proceeds in the county treasury pool as required by law. (Education Code 15146)

The management of public funds shall enable the district to respond to changes in markets or changes in payment or construction schedules so as to ensure liquidity and minimize risk.

Refunding/Restructuring

The district may consider refunding or restructuring outstanding debt if it will be financially advantageous or beneficial for debt repayment and/or structuring flexibility. When doing so, the district shall consider the maximization of the district's expected net savings over the life of the debt issuance and, when using a general obligation bond to refund an existing bond, shall ensure that the final maturity of the refunding bond is no longer than the final maturity of the existing bond.

Internal Controls

The Superintendent or designee shall establish internal control procedures to ensure that the proceeds of any debt issuance are directed to the intended use. Such procedures shall assist the district in maintaining the effectiveness and efficiency of operations, properly expending funds, reliably reporting debt incurred by the district and the use of the proceeds, complying with all laws and regulations, preventing fraud, and avoiding conflict of interest.

(cf. 3314 - Payments for Goods and Services)

(cf. 3400 - Management of District Assets/Accounts)

The district shall be vigilant in using bond proceeds in accordance with the stated purposes at the time such debt was incurred as defined in the text of the voter-approved bond measure. (Government Code 53410)

When feasible, the district shall issue debt with a defined revenue source in order to preserve the use of the general fund for general operating purposes.

The district shall annually conduct a due diligence review to ensure its compliance with all ongoing obligations applicable to issuers of debt. Such a review may be conducted by

general legal counsel or bond counsel. Any district personnel involved in conducting such reviews shall receive periodic training regarding their responsibilities.

In addition, the Superintendent or designee shall ensure that the district completes, as applicable, all performance and financial audits that may be required for any debt issued by the district, including disclosure requirements applicable to a particular transaction.

Records/Reports

At least 30 days prior to the sale of any debt issue, the Superintendent or designee shall submit a report of the proposed issuance to the California Debt and Investment Advisory Commission (CDIAC). Such report shall include a self-certification that the district has adopted a policy concerning the use of debt that complies with law and that the contemplated debt issuance is consistent with that policy. (Government Code 8855)

On or before January 31 of each year, the Superintendent or designee shall submit a report to the CDIAC regarding the debt authorized, the debt outstanding, and the use of proceeds of the issued debt for the period from July 1 to June 30. (Government Code 8855)

The Superintendent or designee shall provide initial and any annual or ongoing disclosures required by 17 CFR 240.10b-5 and 240.15c2-12 to the Municipal Securities Rulemaking Board, investors, and other persons or entities entitled to disclosure, and shall ensure that the district's disclosure filings are updated as needed.

The Superintendent or designee shall maintain transaction records of decisions made in connection with each debt issuance, including the selection of members of the financing team, the structuring of the financing, selection of credit enhancement products and providers, and selection of investment products. Each transaction file shall include the official transcript for the financing, interest rates and cost of issuance on the day when the debt was sold ("final number runs"), and a post-pricing summary of the debt issue. In addition, documentation evidencing the expenditure of proceeds, the use of debt-financed property by public and private entities, all sources of payment or security for the debt, and investment of proceeds shall be kept for as long as the debt is outstanding, plus the period ending three years after the financial payment date of the debt or the final payment date of any obligations or series of bonds issued to refund directly or indirectly all of any portion of the debt, whichever is later.

The Superintendent or designee shall annually report to the Board regarding debts issued by the district, including information on actual and projected tax rates, an analysis of bonding capacity, ratings on the district's bonds, market update and refunding opportunities, new development for California bond financings, and the district's compliance with post-issuance requirements.
