**Subject:** Proposed Agenda Item for the 12/15/20 meeting

Good Afternoon Mr. Cena,

I would like the opportunity to address the MJUSD Board during their meeting scheduled for December 15, 2020. As a concerned parent it has become clear at least at the High School level the current model of distance education is not working. Not only are our students failing in numbers that is hard to comprehend but are becoming disengaged with the process and even more frightening giving up on being educated completely. I believe this is something that needs to be addressed sooner rather than later and something that we need to take a proactive rather than reactive approach to. This is something that will take the parents, staff, teachers, and administrators of our district to accomplish.

As much as we would like to see distance learning come to an end, it has become apparent that it will remain for at least the remainder of the 20/21 academic year. To this end I have formed an online forum for parents to present the issues that they and their students are struggling with and would like the opportunity to present the following items to the board.

### High School

- Block Schedule - From the input from other parents and what I have been able to gather from my own student at MHS. This schedule has been ineffective, there is a far too much downtime in each class, that results in classes finishing early, students being distracted by outside influences, too much down time in between classes. It is my understanding that the block schedule was implemented to reflect the eventual return to class format, and at this point as it looks like that may not happen this year it is time to discuss a change. A move to a traditional schedule our students are used to would bring back a sense of normalcy to their lives. If the school were to move to a min day type schedule, the students would have the benefit of seeing their teachers each day, homework could be assigned daily, teachers would have the benefit of being able to use lesson plans that have been refined over the years instead of having to reinvent each and every lesson to the longer spread out class times.
- Student Communication – Last month my daughter received approx. 150 emails over the course of 15 instruction days, and I have heard from others that this number can easily top 200. Many of these emails are coming as part of Google Classroom notifications when assignments are assigned. The issue is that so many come in the middle of the night, over the weekend times when students are no longer in front of their devices and are getting lost in the shuffle.
- Engagement/Attendance – I have been told that students have not been required to attend class if they complete the work assigned. There have been classes where the assignment is either prerecorded by the teacher or a video from another platform is assigned. How is this beneficial to the learning environment? I had my daughter track her class attendance and over a 2 week period attendance was between 50%-70% any given day. If students are not in class how can we expect them to be engaged into the process? It is clear that participation and attendance need to be a greater part of the grading rubric.
- Late Assignments – As a parent I honestly don't think given the reduced load our students are facing that there should be late work, yet we are faced with the reality of so many that are on the cusp of failing and even more that are so far behind that the task before them seems overwhelming. There has been mixed messages presented to the students, administration and staff seem to be all over the place with policy. There should be a standardized policy given the distance learning environment, so that those students that want to get caught up can.

Thank You

### B. Governance and Administration

California *Education Code (EC)* sections 56195 et seq. and 56205

#### Participating Local Educational Agencies

Participating local educational agencies (LEAs) included in the Special Education Local Plan Area (SELPA) local plan must be identified in Attachment I.

#### Special Education Local Plan Area—Local Plan Requirements

##### 1. Describe the geographic service area covered by the local plan:

The Yuba County Special Education Local Plan Area (SELPA) described herein is a multi-district/district-county plan. The Local Education Agency (LEA) membership of the Yuba County SELPA includes both in-county and out-of-geographic member LEAs.

The six member LEAs located within the Yuba County region include five school districts and one county office of education. Each have one vote on the Superintendent's Governance Council. It is important to note that per local charter petition documents, four of the six member LEAs have authorized one or more charter schools that operate as a "school within the district" for special education purposes. The four charter schools within the Yuba County region are represented in the SELPA governance council by the superintendent of the authorizing member LEA.

The four member charter LEAs located outside of the Yuba County region (also known as "out-of-geographic" charter LEAs) operate as a consortium of charter LEAs. The superintendent of the consortium has one vote in the SELPA governance structure. Within the out-of-geographic consortium, one charter LEA is located within the El Dorado County region and the other three charter LEAs are located within the Sacramento County region.

In total, there ten member LEAs in the Yuba County SELPA who are represented by seven voting superintendents in the Superintendents' Governance Council.

The Yuba County SELPA LEA Membership includes:

- California Montessori Project - Capitol Campus (out-of-geographic area charter LEA)
- California Montessori Project - Elk Grove Campus (out-of-geographic area charter LEA)
- California Montessori Project - San Juan Campuses (out-of-geographic area charter LEA)
- California Montessori Project - Elk Grove Campuses (out-of-geographic area charter LEA)
- Camptonville Elementary School District (including one charter LEA)
- Marysville Joint Unified School District (including charter school operated as by an LEA)
- Plumas Lake Elementary School District
- Wheatland Elementary School District (including a charter school operated as by an LEA)
- Wheatland Union High School District
- Yuba County Office of Education (including one charter school operated as by an LEA and one charter LEA)

## Section B: Governance and Administration

SELPA **Yuba County**

Fiscal Year **2020-21**

The Yuba County Office of Education is designated as the Responsible Local Agency (RLA) as well as the Administrative Unit (AU). In adopting the completed Local Plan, each LEA agrees to carry out the duties and responsibilities assigned to each agency within the Local Plan, or which may be delegated at a later date through agreement of the participating agencies.

For the purpose of the local plan, the term LEA refers to member school districts, member charter school LEAs and the Yuba County Office of Education. The term superintendent refers to the superintendent or chief officer of each participating LEA. The term "local education agency" refers to school districts and charters that have been approved as LEAs for the purposes of providing special education.

The function of Yuba County Special Education Local Plan Area and participating agencies is to provide a quality educational programs and services appropriate to the needs of each eligible child with a disability, who reside within Yuba County, to those eligible individuals who are residents of other SELPAs who may be in need of services, and who in accordance with the provision of the annual budget plan and the cooperating Local Plan Area attend programs in this region, as well as to those students who attend out-of-geographic member charter LEAs. All such programs and services are to be operated in a cost-effective manner consistent with the funding provisions of Ed. Code 56700 et seq, IDEA, other applicable laws and the policies and procedures of the Yuba County Special Education Local Plan Area.

2. Describe the SELPA regional governance and administrative structure of the local plan. Clearly define the roles and structure of a multi-LEA governing body, or single LEA administration as applicable:

### Description of Governance

There are two governance levels and two advisory units in Yuba County SELPA. The governance levels include Superintendents' Governance Council and Operations Council. The governance councils operate under the requirements of the Brown Act, providing a method by which members of the public may address questions or concerns to the governing body. The advisory units include SELPA Finance Advisory Committee and Community Advisory Committee. Additional committees may be convened by the SELPA Director as needed.

### Governance

#### Superintendents' Council

The Superintendents' Council shall consist of the superintendent of each of the participating LEA, each of whom shall provide a liaison function between the LEA governing board and the Council. LEA Superintendents exercise their authority and responsibilities in accordance with policies and procedures of their local governing boards and within the voting procedures of the Superintendents' Council.

The LEA governing boards agree that they shall participate in the operation of the SELPA for the purposes of ensuring provision of programs and services. The Superintendents' Council facilitates this responsibility. Each superintendent, or administrative designee, participates in the Council meetings as representatives of their district/LEA/Charter Consortium.

There are seven voting member LEA Superintendents that make up the Yuba County SELPA Superintendent's Governance Council. They include one from the county office of education, five from the school districts

## Section B: Governance and Administration

SELPA Yuba County

located within Yuba County and one from the consortium of four out-of-geographic area charter LEAs located in the El Dorado and Sacramento County regions.

Each voting member LEA Superintendent shall be appointed to represent their LEA (including the charter schools of whom they authorize) on the Superintendents' Governance Council. There must be four out of the seven LEAs present to make a quorum. To approve any new proposed business actions within the SELPA, a majority vote (four or more votes) is required of the LEA membership. There is only one incident wherein a unanimous vote is required of the Superintendents' Governance Council and that is with the approval of an accelerated program transfer as per California Ed Code 56207 (b).

### Dispute Resolution

In the event of a disagreement among local education agencies, local education agencies and the Responsible Local Agency (RLA), local education agencies and/or the RLA and the SELPA regarding the distribution of funding, responsibility for service provision and any other governance activities specified in the Local Plan, it is the intent of the SELPA Superintendents' Governance Council that issues be resolved at the lowest level possible. The SELPA Superintendents' Governance Council is the approval board of last resort. This policy is intended to resolve disagreements within a period of 45 days but is not intended to undermine local authority.

If a local education agency disagrees with a decision or practice of another agency or the SELPA, that local education agency has a responsibility to discuss and attempt resolution of the disagreement with the party, or parties, directly involved. The parties involved will present the issues to their respective superintendents, or designees, who will attempt to resolve the matter. Either party may request the assistance of the SELPA Administrator, or his/her designee, or the Chair of the SELPA Superintendents' Governance Council. If this process fails, the parties may pursue a hearing on the issues and resolution with SELPA Superintendents' Governance Council.

If either party disagrees with the recommendation of the SELPA Superintendents' Governance Council, and the dispute relates to the distribution of funding, the responsibility for service provision or other governance activities specified within the Local Plan, the party may submit the dispute to mediation. The parties will make a good faith effort to mutually agree to a mediator with expertise related to the dispute. If the parties cannot agree on a mediator, the parties will submit the dispute to the RLA Superintendent for selection of a mediator and/or a decision regarding disputed matters.

Any dispute unresolved in mediation, arising from a dispute that relates to the distribution of funding, the responsibility for service provision or other governance activities specified within the Local Plan shall be settled by arbitration. The arbitration decision shall be made by a panel of three, including one person appointed by each party and a neutral chair of the panel selected by the other two panel members. If the parties agree, the mediator involved in the parties' mediation may be asked to serve as the panel chair.

Each party shall bear its own costs and expenses and an equal share of the mediator's and/or arbitrator's and administrative fees of arbitration. The power and jurisdiction of an arbitrator shall be limited to adjudicating the rights and responsibilities of the parties. The arbitrator shall not have the power to determine constitutional issues or issues outside the scope of Education Code section 56205(b)(5).

If resolution is not reached, then default for decision-making falls back to the SELPA Superintendents' Governance Council for a vote. If resolution is still not reached, then default for decision-making falls to the RLA superintendent for a final decision.

Superintendents' Council annually. The determination is made in the following manner:

1. Prior to February 1<sup>st</sup> of each year, the Operations Council reviews the projected funding allocation for the upcoming year.
2. The Operations Council reviews the present services being provided and discusses any recommendations for modification of the present allocation.
3. The Operations Council develops a plan for the allocation of the program specialist funds. The plan is presented at the Joint Meeting of the Superintendents' Council and Operations Council in February.

Yuba County Office of Education and particular LEAs offer regionalized services to SELPA LEA members. IEP teams may access these programs and services through the established, SELPA approved Level II referral procedures.

Regionalized services/programs may include those necessary for less frequently occurring needs, for example, more functional life-skills programs and programs for students with emotional-behavioral needs.

### 5. Describe the policies and procedures of the SELPA that allow for the participation of charter schools in the local plan:

#### Provision of Special Education Services in Charter Schools Policy:

This policy applies to school districts, county offices of education, and charter schools applying for membership with the Yuba County Special Education Local Plan Area (SELPA).

The purpose of this policy is to clarify the relationship between local education agencies, charter schools, member school agencies and to describe the procedures for applying for LEA status within the SELPA. This policy has the further purpose of assisting applicable charter schools and chartering districts that are members of the Yuba County SELPA with their individual and mutual responsibilities under the law. In addition, this policy has the purpose of assisting applicable charter schools and chartering agencies to meet the special education needs of all eligible students enrolled in applicable charter schools.

#### Charter Schools

Consistent with their IEPs, students attending charter schools are to be considered for special education services in a similar manner to students enrolled in other public schools in accordance with EC §47646. Charter schools within the SELPA shall comply with all requirements of applicable state and federal law regarding the provision of special education services. However, the charter school shall not discriminate against any pupil in its admission criteria on the basis of disability.

Funding for special education services, participation in the governance structure and responsibility for provision of services shall be based on the categorization of the individual charter school. A member district reviewing the petition for the establishment or renewal of a charter school may not refuse to grant the petition solely because the charter school might enroll students with disabilities who reside in a SELPA other than the one in which the district is a member. EC §47647

Charter schools must delineate in writing the entity responsible for providing special education instruction and

## Section B: Governance and Administration

SELPA Yuba County

services. Based on the categorization of the individual charter school, the document must reference any anticipated transfer of special education funds between the granting entity and the charter school and any provisions for sharing deficits in funding. The document must affirm that the district where the student resides, if different than the chartering entity, is not responsible for providing special education services to the students that are enrolled in the charter school. The sponsoring district is strongly advised to specify in the Memorandum of Understanding that the district will be indemnified for costs resulting from the provision of any services to student enrolled in the charter school. Prior to approval of a new charter school, or renewal of an existing charter school, the charter school petitioner(s) are required to consult with both the superintendent or designee of the chartering entity and the SELPA Director to ensure awareness of district and SELPA guidelines and timelines as they relate to special education. This provision shall also apply whenever changes are made to a charter school.

### Categories of Charter Schools

For the purposes of provision of special education services, a charter school shall be deemed either a public school within the chartering district or an LEA that receives funds and provides services independent of the chartering entity. In addition, a charter school that has been approved by the State Board of Education shall be deemed either a public school within the LEA to which the State Board of Education has delegated its supervisory and oversight responsibilities or a public school of the State Board of Education. All approved charter schools will be deemed public schools within a member district and will be treated in the same manner as any other public school of the member district until such time as the charter school obtains membership as an LEA of the SELPA.

#### A. Public School within a School District or County Office of Education

Charter schools that are deemed to be public schools within the chartering entity will participate in state and federal funding in the same manner as other schools or programs within the chartering entity. The chartering entity will be responsible for ensuring that all children with disabilities enrolled in the charter school receive special education and related instruction and services in a manner that is consistent with all applicable provisions of state and federal law. The chartering entity will determine the policies and procedures necessary to ensure that the protections of special education law extend to students in the charter school in the same manner as students in the regular program.

The chartering entity will:

- Receive all applicable special education funds as specified in the Yuba County SELPA Allocation Plan. A charter school will not be eligible for special education funds in excess of the amount of state and federal funds to which they would be entitled if they were operating as an independent school district.
- Represent the needs of the charter school in the SELPA's governance structure.
- Be responsible for ensuring that all eligible students enrolled in the charter school receive special education and related instructional services in a manner consistent with applicable state and federal law.
- Be responsible for procuring and funding appropriate special education services wherever the student may reside. The chartering entity may contract for these services with public or private educational entities. When a student lives outside the boundaries of the chartering district, the district in which the child lives will have no responsibility to provide services or pay excess costs.

The chartering entity and the charter school may enter into agreements whereby the charter school agrees to pay for the excess costs associated with providing special education services to identified students,

## Section B: Governance and Administration

SELPA Yuba County

Fiscal Year 2020-21

including the administration of special education programs. Where the chartering entity is a district, the charter school should be held fiscally responsible for a fair share of any excess cost, not funded by state or federal resources, which would have an impact on district general funds and which are due to the requirement to provide special education services throughout the district.

### B. Charter school as an LEA within the SELPA

A charter school may apply to become an LEA for the provision of special education services. The SELPA Superintendents'/Operations Council will determine whether the charter school has provided the requisite assurances and satisfied the criteria for LEA status established by the SELPA. The application for a charter school will be the same as for any other LEA wishing to be a member of the SELPA. EC §47645. Once granted LEA status, a charter school will participate in the same manner as other members in the governance of the SELPA.

#### Applying for LEA Status with the SELPA

A school district, county office of education, or a charter school may apply to become a member of the SELPA for the provision of special education services. An applicant must request an application from the SELPA on or before January 1 of the school year preceding the school year in which the charter school or LEA anticipates operating as an LEA within the SELPA. The applicant must submit a completed application to the SELPA on or before March 1 of the school year preceding the school year in which the charter school or LEA anticipates operating as an LEA within the SELPA.

The SELPA Superintendents'/Operations Council will determine whether the applicant has provided the requisite assurances and satisfied the criteria for LEA status established by the SELPA. ### Recommended Administrative Guidelines for Charter School Policy

1. The Governing Board of each Yuba County SELPA member LEA shall not approve a petition for creation of a charter school unless the petition contains adequate assurances that the proposed school will comply with all provisions of federal and state law related to the rights of students with disabilities and their parents. (Individuals with Disabilities Act).
2. The Governing Board shall require that a petition include the means by which the charter school intends to serve students with disabilities. This will include a statement regarding the intent of the charter school to be deemed an LEA or a public school within a school district for the purpose of providing special education services. It is strongly advised that the petition should indemnify the sponsoring district for the cost of services to be provided to any students enrolled in the charter school.
3. A charter school may purchase special education services from the SELPA, county, or any other appropriate source in order to provide the full continuum of placement options to students with disabilities. While the county office of education and school districts within the SELPA offer services to all eligible students whose parents reside within the geographic boundaries of the SELPA, services to students whose parent reside outside the SELPA's geographic area shall be individually negotiated. The county office of education, as well as districts within the SELPA, retain the right to bill for services provided to students

Such services are not limited to educational services but may include extra-curricular activities and programs.

4. The petition shall contain assurances that no student will be denied admission to the charter school based on a disability or lack of available services.
5. Prior to approving a charter school petition, the superintendent or designee of the chartering entity shall consult with the SELPA Director regarding the provision of special education services to students enrolled in the prospective charter school.
6. The charter petition, or accompanying Memorandum of Understanding, shall address the allocation of excess costs and/or the charter school's fair share of special education revenue or deficit on the district general fund.
7. The chartering entity (if the school is deemed a public school of the entity) or the charter school itself, if deemed an LEA, shall be responsible for ensuring that special education services are provided in accordance with the student's IEP.
8. Consistent with current practice within the SELPA, a charter school IEP team may place a student in a special education program provided by another educational entity (the COE or another district or SELPA) with the concurrence of the receiving entity. Upon such placement, the placing entity will be responsible for any supports and services needed by the student to benefit from the educational program, and such costs set forth in #3 above.
9. A district IEP team may place a student in a charter program only with the agreement between the educational entities (including chartering agency) and with parental consent.

### Provision of Special Education Services in Charter Schools Procedures

#### **Provision of Special Education Services to Students Voluntarily Enrolled in Charter Schools**

##### *Introduction*

This procedure applies to all charter schools that are authorized by a member LEA of Yuba County SELPA or granted LEA status in the Yuba County SELPA.

Students enrolled in charter schools are entitled to special education services provided in a like manner to students enrolled in other public schools. Charter schools within the SELPA shall comply with all applicable requirements of state and federal law regarding provision of special education services (Education Code section 56000 et seq., Individuals with Disabilities Education *Improvement* Act 20 U.S.C. Chapter 33). A charter school shall not discriminate against any pupil in its admission criteria on the basis of disability. Funding for special education services, participation in the governance structure and responsibility for provision of services shall be based on the categorization of the individual charter school.

Charter schools should delineate in their petition or a memorandum of understanding (MOU) the entity responsible for providing special education instruction and services. This document should reference any anticipated transfer of special education funds between the granting entity and the charter school and any provisions for sharing deficits in funding. This document should affirm, in writing, that the district where the student resides, if different than the chartering entity, is not responsible for providing special education services to students that are enrolled in the charter school.

##### *SELPA Involvement with Approval and Renewal of Charters*

## Section B: Governance and Administration

SELPA Yuba County

For those students who may need additional academic and behavioral supports to succeed in a general education environment, schools may choose to implement a multi-tiered system of supports (MTSS) for all students, such as response to instruction/intervention (RtI2), positive behavioral interventions and supports (PBIS), trauma-informed practices (TIPS), and restorative practices.

MTSS is a school-wide approach that addresses the needs of all students, including struggling learners and students with disabilities, and integrates assessment and intervention within a multi-level instructional, behavioral, and social-emotional system to maximize student achievement and reduce problem behaviors and issues related to mental health.

MTSS, which includes scientific, research-based interventions, also may be used to identify children suspected of having a specific learning disability.

With a multi-tiered instructional framework, schools identify students at risk for poor learning outcomes; monitor their progress; provide evidence-based interventions; and adjust the intensity and nature of those interventions depending on a student's responsiveness.

Children who do not, or minimally, respond to interventions must be referred for an evaluation to determine if they are eligible for special education and related services; and those children who simply need intense short-term interventions may continue to receive those interventions.

Following the implementation of MTSS instructional framework and concerns still remain within the local school student study team (SST),

It is the responsibility of the district of residence (DOR) to provide special education services and related services to an adult student in county jail who remains eligible for these services and wishes to receive them. The DOR is the district in which the student's parents resided when the student turned 18, unless and until the parents move to a new DOR. For conserved students, the DOR is based on the residence of the conservator. (*EC Section 56041*)

Free Appropriate Public Education ("FAPE")

Every individual with exceptional needs who is eligible to receive special education instruction and related services under the Individuals with Disabilities Act ("IDEA") and state special education laws, shall receive that instruction and those services at no cost to his or her parents or, as appropriate, to him or her. A FAPE shall be available to individuals with exceptional needs in accordance with 20 U.S.C. §1412(a)(1) and 34 C.F.R. §300.101.

Eligible Adults

Adults who are aged 18-22 years, have not graduated with a high school diploma, who, at the time they have turned 18 were identified as an individual with exceptional needs and had an individualized education program ("IEP") under the IDEA, are also entitled to a FAPE (hereinafter ("eligible adults").) (See 20 U.S.C. §1400(d)(1)(A), (B), (C); 20 U.S.C. § 1412(a)(1)(A); California Ed. Code §56000, 56026(c)(4).)

Section B: Governance and Administration

SELPA Yuba County

Fiscal Year 2020-21

This applies to adults imprisoned in California adult jails and prisons. However, an individual aged 18 through 21 years, who, in the educational placement prior to his or her imprisonment in an adult correctional facility was not identified as an individual with an exceptional need or did not have an IEP under the IDEA, is not entitled to a FAPE. (20 U.S.C. §1412(a)(1)(B); California Ed. Code, §56040(b).)

District of Residence Responsibilities

For eligible adults who prior to reaching the age of majority resided within the Yuba County Special Education Local Plan Area ("SELPA") geographic boundaries, the applicable local educational agency within the SELPA shall ensure they have available to them a FAPE. If the parent relocates to a new district of residence, the new district of residence shall become the responsible local educational agency ("LEA"). If the student is conserved, the district of residence of the conservator shall attach and remain the responsible local educational agency, as long as and until the conservator relocates or a new one is appointed. At that time, the new district of residence shall attach and become the responsible local educational agency. (Added by Stats. 1992, c. 1360 (A.B. 2773), §8.)

Child Find

The Individuals with Disabilities Education Act (IDEA) requires that students who are in need of special education be identified. This "child find" responsibility extends to nontraditional settings or students such as highly mobile students. In California, local educational agencies (LEAs) must "actively and systematically" seek out all individuals with exceptional needs.

Description:

The SELPA local plan ensures their LEAs are in compliance with all state and federal laws, including child find. This responsibility includes identifying adult students in a county jail within the SELPA who remain eligible for special education services, through means such as self-reporting, interviewing, and requesting prior school records. In certain cases, the SELPA in which the county jail is located may identify an eligible adult student whose responsible LEA is located outside the SELPA. In such cases, it is recommended that the SELPA work with the sheriff and the responsible SELPA/LEA to assist the eligible adult student in contacting the responsible SELPA/LEA. This may include contacting the responsible SELPA/LEA on the eligible adult student's behalf, and/or providing contact information for the responsible SELPA/LEA to the sheriff, and/or providing contact information for the

Section B: Governance and Administration

SELPA Yuba County

Fiscal Year 2020-21

responsible SELPA/LEA to the eligible adult student.

**Individualized Education Program**

Once the LEA is informed that one of its residents is an eligible adult imprisoned at an adult correctional facility, it will revise the individual's IEP as necessary, including conducting an annual review, as needed, subject to the cooperation of the correctional facility where the student is located. The LEA will determine whether the qualified individual is provided a FAPE pursuant to IDEA and corresponding California Education Code. To receive special education services while imprisoned, a qualified individual must consent to the receipt of such services and enroll in the adult education program at the adult correctional facility.

**Limitations**

The following special education exemptions apply to eligible individuals who are convicted as adults under State law and imprisoned in adult prisons:

1. The requirements set out in 20 U.S.C. § 1412(a)(16) and 20 U.S.C. § 1414(d)(1)(A)(i)(VI) (relating to participation in general assessments) do not apply. Eligible individuals convicted as adults under State law and imprisoned in adult prisons are exempted from participation in State and district-wide assessment programs under the IDEA.
2. The requirements of items (aa) and (bb) of 20 U.S.C. § 1414(d)(1)(A)(i)(VIII) (relating to transition planning and transitional services), do not apply with respect to such individuals whose eligibility under the IDEA will end, because of their age, before such individuals will be released from prison.
3. If an individual with a disability is convicted as an adult under state law and imprisoned in an adult prison, the individual's IEP Team may modify the individual's IEP or placement notwithstanding the least restrictive environment ("LRE") requirements of 20 U.S.C. § 1414(d)(1)(A) and the IEP contents requirements of 20 U.S.C. § 1414(d)(1)(A) if there is a bona fide security or compelling penological interest that cannot otherwise be accommodated.
