# DUAL ENROLLMENT

Creating opportunities for high school students to take college courses while in high school. Courses count for both high school and college credit. The MJUSD partners with Yuba College on a host of dual enrollment options.

## THE MIDDLE COLLEGE ACADEMY

A new school that opens in the fall of 2023. The Middle College Academy is a separate high school on the Yuba College Marysville campus. Students have the opportunity to earn both a high school diploma and an AA degree of their choice in four years instead of six years. These students will not be enrolled in a traditional high school campus. They are self-driven to balance high academics with internships, job placements and a flexible schedule to maximize their college and career readiness through options offered at Yuba College.

## THE EARLY COLLEGE PROGRAM

Offered through our comprehensive high school campuses - Lindhurst High School, Marysville High School, and Marysville Charter Academy for the Arts. Early College students attend morning classes at Yuba College and then return to their respective high school. Through this program, students can earn transferable college credits while earning their high school diploma and participating in traditional high school activities and experiences. If students successfully complete all four years of the program, they will earn an AA degree in Social and Behavioral Science along with their high school diploma.
