The surrounding community has a large need for a Community Schools model program to address the ongoing social, economic and safety issues plaguing our students and families. It is no secret that our families have experienced significant disruption and stress as a result of the pandemic, and the expansion of family engagement strategies and supports will positively impact the education gaps evident due to two years of disruption. We have also experienced a significant increase in student behaviors which challenge engagement and learning, also a nationwide phenomenon after the pandemic. Families have limited knowledge of community resources available to address their own needs when dealing with the growing teenage behaviors which are also influenced by increased access to social media. They look to the school to support them with parenting classes, along with sessions on topics such as coping skills and anger management, substance abuse, and responsible decision-making. Implementing the Community Schools Partnership Program will provide the support to address these needs.

If applicable, if the LEA is applying as part of a consortium, as described in *EC 8901(c)*, list the additional LEA(s) and/or cooperating agency(ies) that form the consortium:

If applicable, list the cooperating agency (including county behavioral health agency, federal Head Start or Early Head Start program or other government-funded early childhood program or agency or childcare program or agency within a public institution of higher education), as described in *EC* 8901(d), with which the LEA will partner:

Yuba County Health and Human Services
Sutter Yuba Homeless Consortium
City of Marysville & Marysville Police Department
Yuba County Office of Education
Yuba County Utility District
